MARION, O., Nov. 5.—President-elect Harding has an especial purpose in wanting to visit the Panama Canal. The full significance of the trip will not become apparent until March 4. But the truth is, Mr. Harding is in earnest about reviving the Panama Canal tolls controversy. He wants to see American ships exempted from the payment of tolls when he is inaugurated.

President Wilson found himself confronted with the same question when he took office in March, 1913. The Democratic platform written at Baltimore in July, 1912, had gone on record in support of the action of the Democratic Congress in voting to exempt American ships from the payment of tolls.

"But Great Britain insisted that this piece of legislation was in effect a discrimination against British ships and a plain violation of the terms of the Hay-Pauncefote treaty."

That compact between England and the United States was made as a direct result of a surrender of certain rights England had to "another" interoceanic canal in Nicaragua and the understanding was that, if British relinquished her rights, America would not discriminate against her.

There has been much debate as to whether the treaty actually promised that America would not discriminate against Great Britain as between foreign nations other than the United States or whether the promise not to discriminate included American shipping.

Some international lawyers argued that, of course, America, as the owner and builder of the canal, had the right to do as she pleased about tolls and that the discrimination did not apply with respect to our own ships. Other authorities argued to the contrary. Senator Lodge and Elihu Root, who also was in the Senate at the time, made eloquent speeches saying the law ought to be repealed.

Infamous President Wilson found

infamous as well as Democratic

support in both houses of Congress

when he declared that America

could not afford to take advantage

of other nations by insisting upon a

selfish interpretation of an ambigu-

ous article in any treaty. He also

blatant at large and vital questions

of diplomacy when he said that the

law ought to be repealed and friend-

ship with Great Britain maintained

on account of "matters of far nearer

and more delicate concern."

Just what Mr. Wilson meant by the foregoing phrase was never publicly explained, though it is commonly supposed in Washington that the President was playing for Britain's friendship because of the delicate relationship between Japan and the United States over the California ship and law.

The world doesn't know how close America and Japan came to war that year and the friendship of Great Britain with her powerful navy was deemed extremely important to the United States, especially in view of the Anglo-Japanese offensive and defensive alliance.

Similarly England had an anti-Japanese problem to meet in her own Canadian and Australian dominions, and the wisest diplomacy of the moment seemed to be a firm hand of friendship and a pooling of interests between America and Great Britain.

The Irish-American and German-American societies fought President Wilson on the issue and rallied all their friends in Congress. But Mr. Wilson went out and that part of the land law exempting United States vessels from the payment of tolls was repealed.

Conditions changed.

Circumstances have changed to some extent since 1913. In the election which has just closed millions of Americans of Irish descent flocked to the Harding standard. Aside from the fact, however, that the new President's position has pleased those in our population who are opposed to everything British, the determination to revive the controversy does not have its origin in that quarter. Somebody of influence urged the revival of the matter when the Republican platform was written at Chicago last June. Here is the pledge in that platform:

"We recommend that all ships en-

HARDING DECLINES WILSON'S
OFFER OF A BATTLESHIPPresident Directed Daniels to Put Vessel at
President-Elect's Disposal for
Trip to Panama.By the Associated Press.
MARION, O., Nov. 5.—President-elect Harding has declined today by Mr. Harding.By the Associated Press.
WASHINGTON, Nov. 5.—President-elect Harding today directed Secretary Daniels to place a battleship at the disposal of President-elect Harding for his contemplated visit to the Panama Canal Zone.

The President also instructed Mr. Daniels to offer to Senator Harding the use of the presidential yacht Mayflower to convey him and the members of his party to Hampton Roads to go aboard the battleship.

Secretary Daniels immediately telegraphed the offer to the President-elect at Marion, O. The telegram follows:

"The President desires me to say that, having heard that you con-

template a visit to the Panama Canal Zone, he has directed me to place a battleship at your disposal. I am also authorized to offer in his name the use of the Mayflower to take you to Hampton Roads where the ship will wait for you if that suits your convenience. It will give me pleasure to make such arrangements as will be suitable to you."

Daniels did not announce what battleship would be placed at the disposal of Mr. Harding and his party, but indicated that it would be one of the newest of the super-dreadnoughts.

Senator Harding plans to leave Marion tomorrow by rail for Texas for the beginning of a long vacation. He will spend some time on the Texas coast and the understanding here is that if he goes to Panama it will be from a Texas port. Should the President-elect accept the offer of a battleship and decide to sail from Texas the war craft would be sent there.

March or Between May 29
and July 4.By the Associated Press.
NEW YORK, Nov. 5.—Jack Dempsey, world's heavyweight boxing champion, and Georges Carpentier, European title holder, signed a contract here today, binding them to meet next March, or between May 29 and July 4, to decide the championship of the world.

With the signing of the formal contract, Jack Kearns, as manager for Dempsey, and Francois Deschamps, acting for Carpentier, deposited \$50,000 each as earnest of their intention to make good by producing their principals at the time and place at which shall later be definitely filed.

The agreement, which has 27 clauses, calls for a bout of from 10 to 15 rounds to be fought in the United States, Canada, Mexico or Cuba, "where contests of the character contemplated are permitted by law."

Under the terms of today's compact the \$50,000 prize money will be divided 24 hours before the contest, Dempsey receiving \$30,000 and Carpentier \$20,000.

WAGES CUT 25 PER CENT

By the Associated Press.
TAMPA, Fla., Nov. 5.—At a meeting of the Georgia-Florida Sawmill Association, comprising the biggest operators in the two states, held here yesterday, it was decided that beginning Nov. 8 the wages for common labor in the mills would be cut to \$2.50 a day, and that wages for other classes of workers would be reduced proportionately. This represents a reduction of approximately 25 per cent.

The operators gave out a statement to the effect that the lumber market had fallen off to such an extent that it was a case either of cutting wages or shutting down.

KNOXVILLE, Tenn., Nov. 5.—A reduction of 10 per cent in wages of mine and mill forces of the American Zinc Co. of Tennessee at Mascot, Tenn., has just been made, "due to sine conditions."

SAMOA GOVERNOR,
UNDER CHARGES,
KILLS HIMSELFNavy Department Is Advised
That Commander Terhune
Shot Himself Nov. 3—His
Rule Was Attacked.By the Associated Press.
WASHINGTON, Nov. 5.—Commander J. Terhune, Naval Governor of Samoa, shot and killed himself at noon, Nov. 3, said a dispatch received today at the Navy Department.

An Associated Press dispatch from Tutuila, American Samoa, July 27, announced that native kings and chiefs had dispatched an appeal to President Wilson to investigate the alleged autocratic rule of Commander Terhune in Samoa. It was announced in Washington at the same time that Capt. W. B. Evans, former commander of the dreadnought Wyoming, had been sent to Samoa to succeed Commander Terhune as Governor.

It was stated that the code under which laws are administered in Samoa provides that accused persons must prove their innocence and are denied right of trial by jury.

Terhune's supporters said discontent among the natives had been fomented by Lieutenant Commander C. H. Boucher.

COL. GREEN, WITH \$250,000,
STOPS RUN ON RIVAL BANKSits in Lobby of Texas Institution
Passing Out Currency Following
President's Suicide.Special to Post-Dispatch.
DALLAS, Tex., Nov. 5.—A run on the First National Bank of Terrell, Tex., following the suicide of its president, Marion W. Raley, was stemmed by Col. E. H. R. Green, son of the late Betty Green, this morning.

Raley, despondent over the recent death of his son, killed himself with a shotgun, Wednesday, Thursday, indications were that there would be a run on the bank. Col. E. H. R. Green was in Terrell to vote on election day. He is a director of the American National Bank of Terrell, which is a rival institution of the First National Bank.

He wired the Federal Reserve Bank at Dallas to give Green \$250,000 in currency. Col. Green carried the money to Terrell today escorted by two Texas Rangers. He sat in the lobby of the bank and paid off depositors as they sought to withdraw their funds. The run on the bank quickly ended.

Auditors working on the bank's accounts following Raley's death say the institution is in good shape.

MONTPELIER, Vt., Nov. 5.—Gov. Percival W. Clement late yesterday granted a full and unconditional pardon to former Gov. Horace F. Graham, who was sentenced in the Supreme Court earlier in the day to imprisonment for five to eight years for embezzlement of State funds while he was State Auditor.

The Governor in granting the pardon said: "On account of the distinguished service of Gov. Graham to the State of Vermont and the suffering which he has endured, I feel that he has been punished enough and I have issued him a full pardon."

FINANCIAL TROUBLE

to Be Unbalanced.

An investigation of the business affairs of Henry S. Aller, 44 years old, of Ferguson, a wholesale jeweler with offices at 303 Equitable Building, who ended his life with poison yesterday at the American Hotel, following a report by him that he was robbed of \$3500 worth of jewelry in St. Louis County last Monday night, was started today by concerns with whom Aller had had transactions. It was stated that Aller was involved in financial difficulties.

A coroner's inquest today returned a verdict of suicide, and Coroner Vitt announced that he would hold an autopsy, as a precaution, to determine if Aller's mind had become unbalanced from a blow on the head, as was indicated in the testimony of John Stewart, 632 Forest avenue, Webster Groves, who saw a swelling on Aller's head after the reported robbery.

Had Pawned Diamond Ring.

Vincent Virzie, 1067 Franklin avenue, a retail jeweler, told a Post-Dispatch reporter that Aller was in financial trouble and had him in pawn notes amounting to \$500, which were discounted at the Broadway Savings Trust Co. Virzie also stated that he pawned a barpin and diamond ring for Aller.

It was also learned that Aller owed a local bank several thousand dollars, advanced him on his personal note, with the signature of another person as security.

At Aller's place of business it was said he had been very despondent for more than a month.

Stewart testified in the inquest that he did not know that Aller was in financial trouble and had believed he had been prosperous in business. He said Aller left a note on a table in the room where he died for his wife and that its contents were for the most part expressions of affection for his family.

The note began with the statement, "I am doing this terrible thing because I do not want to live without a mind," Stewart testified.

Note Led to Investigation.

Aller's body was found at the hotel on "instruction" from Stewart, stenographer, who had opened a note to St. art from Aller, in which Aller intimated that he was going to end his life. The girl communicated this news to Stewart, who was in East St. Louis, and he directed her to instruct the hotel management to investigate the note.

Stewart, Aller said in conclusion: "This is the end of a failure."

In his report of the robbery Monday night Aller said three men in an automobile followed him for several miles and halted him near Normandy. He said they pointed revolvers at him and forced him to give up the keys to the door to the back of his coupe and then beat him over the head until he lost consciousness. When he recovered, he said, the men had gone, taking his jewelry case. He said he carried the jewelry with him because he intended to speak stops at retail jewelry stores on his way downtown the next morning.

HARDING'S PARTY TO BE HERE

to Keep Quiet.By the Associated Press.
NEW YORK, Nov. 5.—Bench warrants were issued today for the arrest of at least three persons indicted by the additional grand jury investigating the alleged building trust here. Names of those indicted were not made public.

The joint legislative committee investigating the "trust" was told today that Robert P. Brindell, president of the Building Trades Council and central figure in the inquiry, was one "who thinks he is king" and who has been "riding on a high horse and browbeating contractors and house-wreckers." Albert A. Volk, head of a large demolition firm, who took the stand again this morning, gave this characterization of Brindell.

Tells of \$25,000 Demand.

He told the committee Brindell had demanded \$25,000 to guarantee no interruptions in the construction of the Gotham National Bank's 22-story building on Broadway, and that when he told Brindell the tribe seemed high Brindell asked if it wasn't a 22-story building, and said he figured on about \$1000 a floor.

In conversation, Brindell had spoken of \$10,000 paid him, by two firms and also stated "eight jobs are going to be stopped today," Volk testified.

While the first indictments in connection with the investigation were being returned to Judge Mulqueen, the legislative committee was being informed that the whole limestone trade of the United States was "in the grip of the National Association of Stonecutters."

This testimony was given by Henry Hanlein, cut stone contractor, who admitted a code of practice existed after by-laws of the association were read to him. He admitted also that this code required all members of the national association and allied locals to submit copies of their bids to the recording secretary "to preclude cut-throat competition."

Samuel Untermyer, committee counsel, in reading the by-laws, "that if contractors who belong to the association bid on a job and all bids are rejected by the man putting up the building, that your rules prevent any man from offering another bid again."

"I think it works that way," replied the witness.

"And the same holds true for the locals," he said.

Country "Sewed Up."

"The country, then, is pretty well sewed up in this subject, isn't it?" "Yes," he said.

Hanlein, solitary bidder on the \$1,800,000 contract for the new New York Courthouse, which was recorded recently at Mayor Hylan's direction, was questioned regarding destruction of an "agreement" between eight of his competitors by which it was charged by Untermyer he was allowed to be the only bidder.

He said he had been told it had been destroyed. This information, he testified, came from "Charlie Hutchison, an employee in Hettrick's office," which was raided recently after Hettrick, a lawyer, alleged to have operated a "code of practice" for New York contractors, had been on the stand.

Hanlein admitted that in bidding on the Cunard Line Building he figured charging \$5 a cubic foot for limestone and increased this to \$9 a cubic foot in the courthouse bid.

Volk also testified that the Structural Iron Workers' Union had sent a request to the Building Trades Council that strikes be called on all buildings where union members of their craft were employed, and that Brindell, as chairman of the Executive committee, had taken over consideration of it.

Called Him "Bob" Sometimes.

"I asked Brindell what he was going to do," said Volk. "I called him Bob when I suspected these would be trouble."

"Well," Brindell said, "of course, Al, we will have to pull a few strikes here and there, but we won't hurt our friends."

Volk testified to paying Brindell \$2500 at one time, \$500 at another, and later \$487.75.

The gold cents in the last payment were explained by saying that Brindell was out of town when the job was undertaken, and he "figured on 25 cents a day per man."

When Mrs. Maud Henderson of 375 North Taylor avenue emerged from a store near Sixth and St. Charles streets yesterday afternoon and started to enter her automobile, she found a negro sitting at the wheel and maintaining an air of dignified authority.

"What are you doing there?" she demanded. The negro touched his cap and swung open the door with the grand manner.

"I am the new chauffeur," said he, as one who communicates tidings.

"You're no chauffeur of mine," said Mrs. Henderson firmly. "I don't want any chauffeur." The negro's expression immediately gave way to one of great pain and concern.

"But, lady, I paid \$25 for this job," he said.

"That's \$25 you've lost," Mrs. Henderson said. "And now get out, and tell your troubles to a policeman."

The negro who told the policeman he was Harry Daniels, 24 years old, lost no time. It appeared that he had communicated to a strange negro his ambition to become a private chauffeur. The strange negro sent him away for \$25. When Harry came back with the money, his benefactor led him to Sixth and St. Charles, picked out an automobile and told Harry that was his new job. Then the stranger departed with the money.

MAIL ORDER HOUSES CUT PRICES
ON CLOTHING UP TO 25 PER CENT

Reductions Announced by Two Chicago Concerns Affecting Variety

CHICAGO, Nov. 5.—Two big Chicago mail order houses today announced reductions in the price of winter wearing apparel of from 19 to 25 per cent from prices listed in their catalogues issued in July.

One house lists cuts of 25 per cent in men's shirts of all materials and in women's silk hosiery. A 20 per cent reduction is announced in women's waists, dresses, blouses, comforters, woolen, yarns, ribbons, men's work trousers and overalls. A 15 per cent reduction is made in colored cotton goods, flannels and some lines of hosiery. Ten per cent is taken off towels and crapes, men and women's underwear, men's macintoshes, sheep and blanket-lined clothing and fur coats. Harness and saddles also have been marked down 10 per cent.

Another house includes in its reductions women's plush coats. Men's custom-made all-wool suits, listed at \$47.50 to \$52.50, are cut to \$39.50; those listed at \$32.45 to \$39.75 are cut to \$24.45.

Edna R. M. Ellis, 18 years old, of 1823 North Garrison avenue, a stenographer in the main downtown office of the Bell Telephone Co., was murdered with a razor last night, in a vacant lot on North Market street, which she had to pass on her way from the bus car line to her home. The police learned this afternoon that five boys, playing at 8:15 last night in a lot on Magazine street, a block south of the scene of the killing, saw a tall negro walk rapidly toward them through the lot from North Market street, shaking his head and looking about him. The boys were afraid of the negro and hid behind a pile of timbers as he passed them.

The body, with the throat cut and the hands slashed through kid gloves, was found at 8:15 this morning, in the weeds on the lot, by two women living in the neighborhood. A white bone razor handle, from which the blade had been broken, was found near the body. At the time of the finding of the body the girl's mother, Mrs. Marie Ellis, had been trying for six hours to get police help in looking for her, and had enlisted the neighbors in the search.

The body was fully clothed, and the girl's turban hat was still on her head. Her red handkerchief, which was open near the body, contained a vanity box, with a broken mirror, a handkerchief, a powder puff and a door key. There was no money—her mother does not believe she had more than a carfare, as it was the night before payday.

On later examination, it appeared that the throat had been slashed at least three times. There were deep cuts on each side of the neck, and a cut across the windpipe at the front. Both hands were cut to the bones between the thumb and first finger, and the gloves were tattered. There was a small wound on top of the head.

Police Capt. Johnson, after an inquiry into the facts, said he believed the girl had been killed while resisting a criminal attack. He said there had been some reports recently that a man had been annoying women and girls in the neighborhood.

Boys Tell of Seeing Negro.

The five boys who told of seeing the negro were Walter Dugan, 14 years old, of 1927 Laffin street; Henry Gerlach, 12; Howard McHenry and Chester Boenker, each 15, and "Babe" Mackey, 7, all living in the immediate neighborhood.

The negro seemed to be six feet tall," Walter Dugan said. "He came across the open lot from North Market to Magazine street, taking long strides and shaking his head as if he was crazy. We were playing beside a pile of timbers, and we hid behind the timbers, and little Babe Mackey started to cry. The negro came right over where we were, and stood up on one of the timbers to look around, as if he was afraid someone was after him. Then he walked east on Magazine street, and I think I would know him if I saw him again."

Edward Dinkelskamp, 15 years old, of 2445 Montgomery street, and Edward Donohue of University street and Elliot avenue, today told police that about 1:15 last night they saw two women run east on North Market street toward Glasgow avenue and heard them shout: "There's been a murder up there."

HARDING PROMISES 'ASSOCIATION' SAYS LEAGUE IS DEAD

Tells Citizens at Marion Jolification That His Administration Proposes to Do Its Part in Peace.

FOR ASSOCIATION THAT MAKES NO SURRENDER

President-Elect Will Start Tomorrow for Texas, by Way of St. Louis, for Hunting Trip.

Special to the Post-Dispatch. MARION, O., Nov. 5.—In his first speech since his election, President-elect Harding declared before 10,000 residents of Marion and the surrounding country last evening that the League of Nations was "dead" because the American people did not desire to surrender their national rights. His remarks were in reference to a dummy corpse carried past his residence in the parade that preceded his address and labeled "The League of Nations."

"I noticed some enthusiasm carrying the spectacle of a dead League of Nations," said he, "and I didn't see in your faces as much sorrow as I might have anticipated. It is not because you or I question the high ideals of those who sponsored the Versailles covenant. I don't think you question the wisdom or the justice or the desirability of America's having its part in an association of nations. I know what is in your hearts. You just didn't want a surrender of the United States of America. You wanted America to be free and unmolested to the Old World. That's why you didn't care for the League, which is now deceased."

"Going to Play Our Part." "Let me say that doesn't mean we don't want this country to do its full part. Alas, it is not playing a great part in the restoration of the Old World. When the next administration comes into power we're going to play our part. We are going to ask the nations to associate together in a spirit of justice, but it will be an association that surrenders no American freedom, but which allows us to go on a free America, fulfilling the destiny of the greatest republic in the world."

He declared that the task before him was such as to make any person pause.

In his short talk the President-elect touched on no other issue of the campaign, but thanked the crowd for its tribute and asked that he go to Washington "with your good wishes and your confidence and prayer."

"It's a solemn responsibility," he said, "and when I am through I want to be able to come back and be one of you again, the same as I am now. I like to stand before you and tell you I don't come with a simple apology or regret. Before I'd become President by speaking ill or uttering a lie I'd spurn the office."

He added that he always had liked "the Marion spirit of boosting" and that he was "going down to Washington as a booster for the United States of America."

Town Under Carnival Spirit. Thousands took part in the evening's parading and serenading. Noise-making devices of many kinds shrieked about the Harding home and the crowd sang and shouted and turned while a half-dozen bands played in with patriotic airs, old-time favorites and common jazz.

The Harding front porch, chief feature of the Senator's campaign, was the center of the celebration, although the town's business and residential streets also were under the sway of the carnival spirit until late at night.

R. C. Crisler, a former Democratic nominee for Congress, but a supporter of Senator Harding through the campaign, is president of the Marion Civic Association and acted as the spokesman of the serenaders.

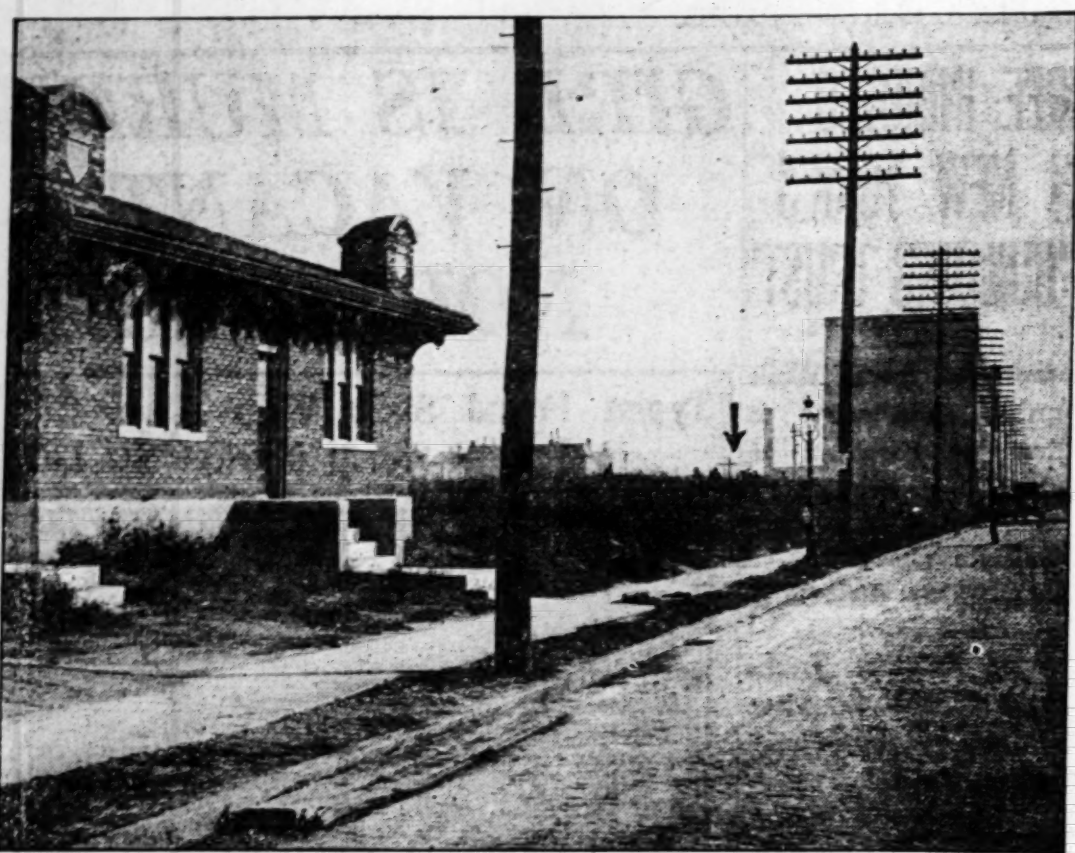

The dozen girl stenographers and clerks attached to Harding headquarters headed the parade, which formed in the business section and marched to the Harding residence along the white-pillared pathway of the front-porch delegations of the campaign. The Harding Marching Club, the Harding Women's Club of Marion, women employees of the Marion Steam Shovel Co., the Harding Railway Club and many other organizations of this and other cities were in the line.

President-elect and Mrs. Harding first reviewed the parade as it passed the front porch and then personally greeted the marchers as they broke ranks and assembled on the lawn. They both expressed particular pleasure at the work of the civic organizations.

The President-elect yesterday afternoon visited his bank for the first time in several weeks.

Detailed arrangements for the President's vacation trip, beginning tomorrow, show that those who will go along with the President-elect and his wife include Senators Frederic H. McLean, of the Washington publisher; Harry M. Daugherty, the Harding pre-convention manager; George B. Christian Jr., Mr. Harding's secretary; Dr. C. E. Sawyer, his family physician; Judson C. Welliver, publicity director at Harding headquarters; and also Malcomb Jennings, attached to the headquarters. The wives of several of these will accompany them, and two stenographers, a secret service guard and a dozen newspaper men will complete the party.

ing headquarters, and also Malcomb Jennings, attached to the headquarters. The wives of several of these will accompany them, and two stenographers, a secret service guard and a dozen newspaper men will complete the party.

Train to Go by Way of St. Louis.

The trip will be made on a special train, which will leave here tomorrow morning and will go to Point Isabel, Tex., by way of St. Louis and San Antonio. There will be a short layover at San Antonio Sunday night, where the Senator will be joined by F. B. Scooby and R. B. Creaker, Texas Republicans, whose guest he will be during the 12-day stay at Point Isabel.

The train will reach Brownsville Monday morning and the party will travel the remainder of the distance, 20 miles, by motor. Some difficulty has been encountered in arranging a suitable schedule for the President-elect's proposed trip from Point Isabel to the Canal Zone, where he had expected to go after 12 days' hunting and fishing along the Texas coast. It was said that details of the voyage were in abeyance pending further advice from steamship companies. There are no regular sailings from the points where the Senator had hoped to sail.

Moreover, the speech of acceptance of Senator Harding in Marion last July contained the following paragraph:

"I like that recommitment to the thought of America first which pledges the Panama canal, an American creation, to the free use of the American shipping. It will add to the American reawakening."

Doesn't Senator Harding realize, it will promptly be asked, that the relations between Japan and the United States over the California situation are still strained and that the importance of an Anglo-American understanding is as great as ever?

Plans Friendly Negotiation. The answer is that the President-elect expects to negotiate the whole question in a friendly manner with Great Britain. For instance, it might be advantageous to England to have a definite understanding with the United States on the question of naval armament.

With Germany helpless, the American navy alone stands as a possible competitor. England needs every cent of her budget for things other than naval armament and she would, it is argued, save a great deal if she were assured concerning the American naval building program. That is just an idea which the President-elect is said to be considering as a sort of quid pro quo in the settlement of the Panama canal tolls question.

Also there are questions of tolls in the Suez and other British waterways which could be adjusted in a general discussion of the whole subject.

Senator Harding has been impressed with the necessity of securing advantages for the American merchant marine and the visit to the Panama canal is the beginning of a thorough study of the entire subject by the next President of the United States. What Great Britain will do or say about it is quite another question.

AMMUNITION SHIP SUNK

French Destroyer Sends Down Vessel on Way to Turkey.

CONSTANTINOPLE, Nov. 5.—The steamer Zenobe, flying the red flag, and freighted with ammunition for the Turkish Nationalists in Trebizond, was sunk in the Black Sea off Batumi by a French destroyer at 10 o'clock Wednesday night, according to advices received here today. The Zenobe went down after a tremendous explosion on board. Twenty-two members of her crew were taken prisoner.

Girl Murdered on Vacant Lot on North Market Street

her she had last seen Edna getting off the car at North Market street. At 2 a. m. after having telephoned to the Norton home again, Mrs. Ellis telephoned to the police and told of her anxiety about her daughter. "That's just like a young girl," said the man who answered her. "Maybe she's gone some place."

At 6 a. m. the mother telephoned to the Dayton street station, appealing to the police to begin a search. "We'll send an officer over at 7 o'clock," she was told. She waited until nearly 8, and no policeman appeared. Then she appealed to her neighbors to help her look for Edna.

Body Found by Women.

Mrs. Lena Carter of 1821 North Garrison avenue, and Mrs. Alice Francis of 1827, started wandering about, and went for some distance along the diagonal path through the block opposite the house. They say they saw an elderly man, apparently hunting for something, who went on. A little later, Mrs. Carter saw what seemed to be footprints, and followed their direction into the weeds.

She screamed as she saw the green coat which she knew to be Edna's. She and Mrs. Francis did not stop to make an examination, but ran across North Market street to a tool shop, from which men came. The surroundings were not disturbed until policemen arrived.

Miss Norton, on arriving at the Bell company's office this morning, told of Edna's failure to return home and Mrs. Ellis' anxiety about her. The girl, who had been regularly employed at the Bell company, was reported missing last night.

Special agents of the Bell company were detailed to assist the police in investigating the murder. The company announced that a reward of \$2000 would be paid for information leading to the capture and conviction of the murderer.

Gas Lamps on Street.

There are three gas lamps on North Market street, between Glasgow and Garrison avenues. Two are on the north side, one about 40 yards east of the nearest point on the sidewalk to the place where the body was found, and one about 60 yards west of that point on the sidewalk.

The lamp on the south side of the street is about 16 feet west of the point on the opposite sidewalk. Three telephone poles, two on the north side of the street, cast shade on parts of the nearly vacant block.

A night watchman regularly employed at a factory on the south side of North Market street. This watchman will be asked whether he heard any disturbance last night.

Capt. Johnson said, when told of Mrs. Ellis' search for her daughter, that he had expressed herself as being afraid of a young man, whose name Miss Lovejoy made known to a police officer.

Some time after the investigation at the scene of the murder had begun, a boy found an envelope, with blood spots, which proved to be a holding conductor's envelope, used for holding transfers. It was not certain that the envelope had not been dropped by some one of a number of street car men who visited the scene after the investigation had begun. Or it may have been dropped at the place some time before the crime, by someone who had no connection with the crime.

Detective Sergeant Carroll and Detective Powell, Durnin and Deter conducted the investigation. They believe that two small footprints, found on the low embankment at the south side of the lot, were made by the girl's shoes as she was dragged into the lot.

An automobile is said to have been standing near the scene of the killing, but the police did not believe that the murderer had been in the car.

Mr. Edna said her daughter had a number of young men acquaintances, all of whom, in the mother's opinion, were of good character. She went to dances occasionally. She was a graduate of Washington High School and was attending Soldan High School at the time when her father and mother separated, two years ago. The mother and daughter then moved from their home at 5646 Theodosia avenue and Edna went to work for the telephone company. The father, Lee Ellis, is said to have gone to Colorado, and Mrs. Ellis has obtained a divorce.

"She was my only child," the mother said today. "We were more like sisters than like mother and daughter. She was a pretty girl, and a good one, and she gave me her pay, and always let me know where she was. That was why I was sure something had happened to her last night."

COURT TO LOOK INTO PALMER'S IDEA OF EVIDENCE

Judge Anderson Says Inquiry Will Be to Determine Whether Attorney-General Can Agree on Suppression.

OUTGROWTH OF COAL STRIKE INJUNCTION

Palmer Ordered That Matter in That Case Be Not Used Against Defendants in Conspiracy Trial.

By the Associated Press.

INDIANAPOLIS, Nov. 5.—Federal Judge Anderson declared in United States District Court today that the investigation to be made by him next Monday of Attorney-General Palmer's connection with the soft coal strike cases would be for the purpose of ascertaining "whether the Attorney-General can make an agreement to suppress a portion of the Government's apparently was prompted by Washington dispatches quoting Palmer as saying he was unable to judge "what Judge Anderson is proposing to investigate." Palmer's statement was made last night after he had received notice of the investigation, sent from here at Judge Anderson's direction.

The court's explanatory statement was made today when attorneys in a civil case asked that it be set for early hearing.

Declaring he was unable at present to set a date for the other case because of the pending coal case, Judge Anderson said:

"I am engaged in a controversy with the Government. I have a case set for next Monday, the coal case. I am going to find out then whether the Attorney-General can make an agreement to suppress a portion of the evidence on the part of the Government in the trial of that indictment."

Judge Anderson's charge that the Attorney-General is attempting to suppress evidence was based on Palmer's statements directing Government counsel in the coal cases not to use the evidence contained in the bill of equity which Judge Anderson issued an injunction last year directing cancellation of the order by mine union officials calling the soft coal strike.

The Attorney-General, it was learned here today, has asked District Attorney Van Neuss, Special Prosecutor L. E. Slack and former Special Prosecutor Simms to go to Washington immediately for a conference regarding the investigation.

Palmer's message, sent last night from Washington, was received here today, and Van Neuss and Slack will leave here tonight for Washington.

Simms, who resigned as Special Prosecutor in the coal case, with the statement that the Attorney-General's order had "cut the heart of the cases," could not be reached here or at his home in Lafayette, Ind.

HIGH SCHOOL PRINCIPAL SLAIN BY BROTHER OF GIRL HE WHIPPED

Only One of Four Smiths in Senate Survived Landslide

WASHINGTON, Nov. 5.—Special to the Post-Dispatch.

ORTUNE hit the senatorial Smiths a terrific wallop in the elections. After the December session the clerk will no longer intone the familiar quartet of names on a call of the Senate: "Smith of Arizona, Smith of Georgia, Smith of Maryland, Smith of South Carolina."

All are Democrats and all sought to come back, but only one survived the landslide. Hoke Smith was defeated by Tom Watson in the Georgia primary; Marcus A. Smith of Arizona and John Walter Smith of Maryland lost in the election. The sole survivor is Ellison D. Smith of South Carolina. There used to be five Smiths in the Senate but the number was reduced to four when William Alden Smith of Michigan, Republican, retired, and was succeeded by Truman H. Newberry.

BUILDERS TELL OF PAYING \$11,000 TO LABOR LEADER

Continued From Page One.

employed in the work as Brindell's share.

Volk testified yesterday to the payment of \$6500 to Brindell.

More house wrecking and building contractors appeared yesterday and testified to the payment of more than \$11,000 to Brindell and his walking delegates for the privilege of getting jobs and using union men on the work. Virtually all the witnesses told the committee that if they had not paid Brindell or his associates certain sums when demanded they would have been "put out of the business" by strikes and labor trouble.

Additional testimony as to the payment of money to Brindell and his aids, who had, in previous testimony, been charged with receiving thousands of dollars from builders, came in rapid-fire order near the close of the afternoon session.

The payment of money to Brindell's walking delegates, was given by S. X. Minerson, a contractor, who declared he had paid two business agents—Peter Stadtmuller and George Moran—\$2000 to get work started on a job. He testified that he had paid \$2000 to each of them.

House Wreckers Testify. Louis Cohen, a house wrecker, made the first revelation of the day when he testified to paying Brindell \$4500 in sums ranging from \$250 to \$3000 for the privilege of getting contracts and working them with the council's men. He was followed by Israel S. Goldstein, another house wrecker, who said he had paid Brindell \$200 a job, of which amount \$25 was in check. The check, indorsed "Brindell" was placed in evidence.

The first direct testimony relating understood that they wanted the money to pay Brindell.

Another builder told the committee that when work was stopped on one of his jobs he paid Moran \$500 and work was started "three hours later."

Volk also testified to paying the Brindell organization more than \$1100 for "initiation fees and dues" of men in his employ.

When asked why he had submitted to Brindell's demands, Volk declared he "had to come across" as the labor leader told him that "it was up to him to select any work and the giving of jobs."

"He told me," continued Volk, "that he had licked the builders into shape and they had to come across and that many of them were his friends. He said he had fought all with him, but he did not specifically mention how, but I understood it was through union fights."

When he offered Brindell \$2000 for getting him a \$15,000 stock exchange wrecking job, Volk said Brindell told him he was "picking" and walked away. Several days later he said he returned to the labor chief's office and "pleaded with him to take my \$2000," and when Brindell "was sending me out of his office I finally said, 'Bob, I'll make it \$2500.'"

When he told Brindell he didn't have the money with him, the witness said the labor chief wanted to know, "What you want to come around here for without it?" Volk said, however, he soon got the cash and Brindell accepted it.

DUTCH REPUBLIC POSSIBILITY UNDER NEW PROPOSALS

Recommendation of Commission Based on Possible Lack of Male Heir.

By the Associated Press.

THE HAGUE, Nov. 5.—The possibility of becoming a republic is in prospect for Holland under recommendations submitted today by the commission appointed to revise the constitution. If these recommendations are adopted, Holland will have the chance to decide upon doing away with royalty, unless the little Princess Juliana, only child of Queen Wilhelmina and Prince Consort Henry, some day gives birth to a son by a husband whom the Dutch parliament approves as her consort. The Princess now is 11 years old.

The commission proposes that hereafter, unless there is a direct male descendant of a male ruler, the throne shall go to some male of the second degree, and so on, until a male successor, however, the people shall have the opportunity to change the country's form of government, under the commission's scheme.

C. B. & Q. WOULD ISSUE BONDS

By the Associated Press.

WASHINGTON, Nov. 5.—The Chicago, Burlington & Quincy Railroad applied today to the Interstate Commerce Commission for authority to increase its capital stock by \$40,000,000, and to issue 6 per cent first and refunding mortgage bonds to the amount of \$109,000,000.

cut stone contractor, concerning his \$2,000,000 limestone contract on the Pacific train No. 193, was recently rescinded by Mayor Hylan.

Hainlein admitted that the contract price could have been reduced \$75,000 or \$80,000 had it not included the payment of \$25 per cent of the total amount of the contract, which 5 per cent was to go to John T. Hettrick, a lawyer, 5 per cent to a "Mr. Hutchinson, a cut stone expert," 4 per cent to the Greater Stone Association, and 2 per cent to the "Code of Practice" Insurance fund.

Walter Melton, who, yesterday denied on the stand that he had paid Brindell \$2500 in connection with a wrecking contract, today admitted paying the money. He declared his testimony yesterday had been given because of threats to drive him out of business, which, he said, had been made by Joseph Brindell, one of Brindell's aids.

ALIEN CAUSES LAUGHS AT CITIZENSHIP HEARING

Answers "Democratic" When Asked as to Form of Government of U. S.

By the Associated Press.

Stanko Holkewich, a native of Austria, caused a laugh in the United States District Court today. He was one of 11 foreigners who were being examined for naturalization. One of the questions put to him was "What form of Government has the United States?" His reply was "Democratic."

In view of the recent election results this seemed to strike everybody in the courtroom as highly humorous, and Judge Farley, Democrat, joined in the laughter. Because of this answer and others indicating a small grasp of American ideas, citizenship was denied to Holkewich.

Papers were denied to Nicholas Volmer and to Joseph Keller, a physician, on the ground that they had once falsely represented themselves to be citizens. Volmer said he was a citizen of Austria, and Keller said he was a citizen of Austria.

The application of Robert Karl Schultz, of 4447 Beck avenue, was denied because in the war he withdrew his application for second-class papers, saying he was unwilling to fight against Germany. He re-filed his application after the war. At the hearing today he testified that he thought it natural that he should not want to fight against his native country. If he had been an American citizen, he said, he would have been willing to fight against Germany.

One of those to whom citizenship was granted was August Adolph Busch, manager of Grant Farm and first cousin of August A. Busch, its owner.

A number of others were denied citizenship because they claimed exemption from the draft as enemy aliens. A rehearing was denied to Louis R. Eppler, a lumber dealer, who at a previous hearing was excluded from citizenship on this ground.

Gov. Roberts of Tennessee to Be in St. Louis Nov. 16
He will deliver an address to Women's Organization Meeting at the Coliseum.

Gov. A. H. Roberts of Tennessee will be in St. Louis Nov. 16, as the guest of honor of the Women's Exposition, which will be held at the Coliseum Nov. 15 to 20, under the auspices of the Board of Religious Organizations.

Roberts will give an address as part of the Women's Victory celebration, having been chosen because he was active in passing the suffrage amendment in his state, thus giving the vote at the recent election to American women. Members of the League of Women Voters and other organizations will be asked to take part in the celebration, and Gov. Roberts' guard of honor will be composed of members of the local Tennessee Society.

Proceeds of the exposition, in which 15,000 women of the Protestant and Jewish churches are interested, will go to social service work among St. Louis girls and women, to provide trained women workers at the city courts, and establish Americanization and community center activities.

MARKED BALLOTS FOUND IN SEWERS IN NEW YORK
District Attorney Begins Formal Investigation of Alleged Election Frauds.

NEW YORK, Nov. 5.—District Attorney Edward Swann today began a formal investigation of alleged election frauds as a result of the finding of 24 marked ballots yesterday in sewers of the Thirteenth election district of the Fourth Assembly District. Swann's investigation of election frauds of that district to be questioned.

Meanwhile street cleaners of that and other districts were directed to search sewers and other places for marked ballots.

Investigation of alleged fraud in Harlem also was begun. It was reported that in some districts more ballots were returned than there were registered voters. Other alleged irregularities also were reported.

Board of elections records show that 555 voters registered in one election district while sheets from the district clerk showed only 494 defective ballots, or more than one defective ballot for every registered voter.

MAN IN HEAD; SAYS HE SLAPPED HER

Trouble at 1007 Cass Avenue Due to Neighbors' Quarrel Over Slamming Screen Door.

ONE BULLET STRIKES VICTIM IN FOREHEAD

Paul S. Kalucki in Hospital Not Expected to Recover—Mrs. Valerya Brys, Divorcee, Under Arrest.

The slapping of a screen door caused Mrs. Valerya Brys, 30 years old, 1007 Cass avenue, to shoot Paul S. Kalucki, 51 years old, a real estate agent and steamship agent, 1007 Cass avenue, through the head at about 10 a. m. today. Kalucki was taken unconscious to the city hospital, where surgeons said he was fatally wounded.

Kalucki and his wife occupy the flat above his office. The Kaluckis and Mrs. Brys use the same front and back stairs. The Kaluckis, to reach the back stairs, passed Mrs. Brys' door on the back porch and she complained that they were in the habit of slamming the screen door.

This forenoon, she told the police, Mrs. Kalucki slammed the door. Mrs. Brys went out and asked why she did it. Mrs. Kalucki did not answer, but called her husband. Mrs. Brys says he told her she had no right to open it against his wall and slapped her.

She went into her kitchen and picked up her revolver, which was lying on the sewing machine. She returned to the porch and fired two shots at Kalucki, who was going down the steps. He turned to look back and one of the bullets struck him in the center of the forehead and passed through his head. The other bullet missed.

Mrs. Brys was taken to the city hospital to be identified by Kalucki, but as he did not regain consciousness, she was locked up at the Carr Street Station.

Mrs. Brys was divorced from her husband about five years ago. She has two daughters, 8 and 13 years of age.

Autobiography, With Revelations Concerning Politicians and Nobility, Is Criticized by Some London Newspapers.

Special Cable to the Post-Dispatch and New York World.

LONDON, Nov. 5.—Margot Asquith's autobiography, published today, has aroused a perfect storm of mingled praise and denunciation from the critics. In some of their political animosity to her husband, the former Premier, reacts upon her book, but none denies the brilliancy of the portrait etching or the entertainingness of her anecdotes, though, all believe reticence might have been commendable in some respects.

In society and high political circles from which she so naively tears the veil, exposing them in their real colors, the fury provoked by her disclosures and her judgments is almost inarticulate.

The Times declares "The book is excused," and "That the book will do mischief is, we are afraid, inevitable." "We very deeply regret the issue of the publication which would cause widespread scandal," The Morning Post titles it "Malice in blunderland," and declares it would have made Pepsys feel secure.

The Lloyd George organ, the Daily Chronicle, naturally is very severe, pointing out, "There are very few eminent men and women in the gallery of her friends who do not suffer in public estimation by inclusion in this portrait of indiscretions."

Following upon Col. Repington's disclosure of Pagan indifference with which smart society luxuriated in the excitement of the war, the book is much material for many homilies by radical and labor papers.

Winston Churchill's criticism in the Daily Mail shows he is stung by references to himself, one of which—"His rambling talk at Downing street on the night of the issue of the war ultimatum"—he denies, asserting he wasn't there at all.

NEGRO PURCHASED LOT TO QUALIFY FOR LEGISLATURE

Plot Owned by W. L. Moore Is of the "Politician's" Variety in Carondelet, Having Frontage of 4 Feet

Waltham M. Moore of 8035 Pine street, the only negro elected to the Missouri Legislature at last Tuesday's election, was found this afternoon to have qualified for office by the purchase last September of a "politician's lot" in Carondelet. The lot has a frontage of four feet.

To comply with the law requiring that an office holder must be a taxpayer, he paid four years' back taxes on the lot, amounting to \$4.35.

After a search of the records in the collector's office failed to show that Moore had paid any taxes in his own name, Democrats were planning to contest his election, and it was said this morning that John Keegan, a Democrat, who received the next highest vote in the Sixth Legislative District, would institute the contest on the ground of Moore's supposed ineligibility.

Information obtained by The Post-Dispatch this afternoon showed that on Sept. 1 last Moore went to the collector's office and exhibited a deed in his name to lot 11, block 25, in Carondelet. This lot had been transferred to him by Robert Walker and had formerly been owned by James P. Cahill. There were four years' back taxes due on the lot. The tax bills were in the names of the former owners and Moore paid the taxes in their names, but had the bills endorsed by the collector as "paid by Waltham M. Moore."

In a number of cases the Board of Election Commissioners has ruled that a purchaser of property who pays the back taxes due on that property is legally a taxpayer within the meaning of the law fixing the qualifications of officeholders. Under these rulings, it was said at the City Hall, Moore's eligibility to serve in the Legislature cannot be attacked.

Moore is 38 years old and was born in Alabama. He received his education in Howard University, a negro school in Washington. He formerly was a clerk in the St. Louis Postoffice, and more recently has been a waiter in downtown restaurants. He worked for a time at the City Club.

Moore has stated that he would enter the Legislature with the purpose of helping the public welfare; will oppose everything against public welfare, and will support those things agreed on in the Republican caucus. He said he would work in the interest of higher salaries for school teachers, who he said are raising the educational standards of the state, and would do what he could to provide more educational advantages for negroes.

MICHIGAN WOMAN SHERIFF WILL NAME HUSBAND AS DEPUTY

"I Can Land a Bad Man or a Bad Woman Myself if Necessary," She Says.

By the Associated Press.

ROSCOMMON, Mich., Nov. 5.—Mrs. Jane Johnson, 65 years old, mother of three children and Sheriff-elect of Roscommon County, today outlined the platform on which she will go into office next January.

"I can land a bad man, or a bad woman myself, if necessary," she said, "but as a matter of precaution I will appoint my husband deputy. In the intervals between searching for and caring for prisoners I will look after my children—two girls and a boy—and the domestic duties in the county jail."

Mrs. Johnson added that in case it should become necessary for her to arrest a bad man he will know someone has been after him."

The Sheriff-elect gained her experience from her husband, who has been Sheriff for the last six years, and whom she married 40 years ago.

GOODS VALUED AT \$5000 IN HOME OF STORE JANITOR

Merchandise Identified by Employees as Having Recently Disappeared From Departments.

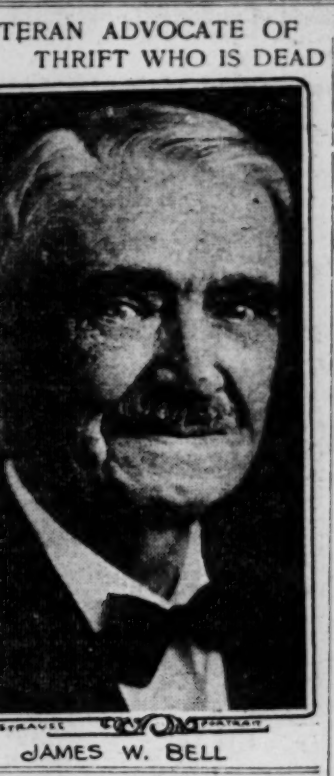

Merchandise, chiefly wearing apparel, valued at between \$5000 and \$6000, was confiscated today at 2 a. m. in the home at 1517 South Eighth street of Michael Weisbacher, head janitor for Stix, Baer & Fuller, and has been identified by representatives of that firm as part of goods that have disappeared recently from the store. Weisbacher was not at home at the time of the search. Detectives are seeking him.

When a watch of employees had indicated Weisbacher as responsible for the disappearance of goods, Detectives Kaiser, Wetzel and Heggenman followed him from the store on a recent night, and, posing as nightwatchmen, held him up and searched him. He had nothing, but longed to the store in his possession at that time. The search of his home, however, revealed goods of which the following were a part: Forty-one silk shirts, 11 pairs of trousers, 13 coats, 19 vests, 8 overcoats, 25 shirts, 2 dresses, 23 women's cloaks, 5 suits, 6 fur neckpieces, 1 muff, 20 yards of silk that had been torn from a bolt, the tear matching, it is said, that in a bolt of silk still in the store, 3 corsets and a miscellaneous assortment of thermos bottles, gloves, neckwear, phonograph records, shoes, silk stockings and socks and a wash boiler.

Mrs. Anna Weisbacher, the janitor's wife, told the police that she had returned Sunday from Germany, where she had gone to get her two children, 13 and 11 years old, whom she and her husband had left in Germany when they came to this country several years ago.

Weisbacher formerly was doorman at the Grand Leader, where his military bearing and Kaiser-like moustache attracted attention. He was arrested as an alien during the war and held 60 days while his activities were investigated. Following his release he was removed from his post at the store's entrance and made head janitor.

It was learned that he owns an automobile which he keeps in a garage at Seventh street and Ann avenue at a rental of \$12 a month. The police say that he pays \$10 a month rent on the living rooms which his family occupies. The automobile was in the garage today.

JAMES W. BELL

WILLIAM M'GILLICUDDY ARRESTED AT STORE

Son of Former Politician Paroled After Sentences for Thefts.

Police were called to the famous Barr store yesterday at 4 p. m., and found employees holding William M'Gillicuddy, 27 years old, of 3315 Franklin avenue, son of John J. M'Gillicuddy (Cuddy Mack), in former years a Democratic politician. They said they had observed M'Gillicuddy place two boys' suits, each valued at \$35.50, under his overcoat. He was arrested.

M'Gillicuddy was seized on Aug. 16, 1919, during early morning, as he emerged from the drug store of Edward Driscoll at 6446 Clayton avenue in response to warning signals from an automobile in which he had come to the store. He endeavored to escape and Patrolman Behnen shot him in the head. M'Gillicuddy was permitted to plead guilty to a charge of petit larceny before Judge Taylor in Circuit Court last March and was sentenced to one year in the workhouse, being paroled a month and a half later.

He was arrested on a burglary charge in 1916 but was permitted at that time also to plead guilty to petit larceny and was paroled.

55,000 Belgian Miners Strike.

BRUSSELS, Nov. 5.—The strike of coal miners in the Charleroi coal fields, which became effective Tuesday, has spread to the La Louviere region, 10 miles northwest of Charleroi. The miners involved in the strike number 55,000.

FUNERAL OF J. W. BELL HELD FROM HOME

Veteran Banker and Advocate of Thrift Died Yesterday at the Age of 94.

The funeral of James W. Bell, veteran St. Louis banker and advocate of thrift, who died yesterday at the age of 94 at his home, 5045 Westminster place, held from the residence this afternoon.

Bell was a member of the board of directors of the Mercantile Trust Co. up to his death, and was manager of the company's savings department until his ninetieth birthday, which was Aug. 15, 1914. He resigned on that day the position of manager, which he had held for 17 years.

Bell was born in Wheeling, W. Va., and came to St. Louis at the age of 22, being first a steamboat employee, and then an employee in the Giles Filley Foundry, where stoves were manufactured. He began with the foundry company as shipping clerk, and became secretary and treasurer. In that position he persuaded the company's employees to start a savings fund.

Founded Savings Bank.

Later Bell became more directly interested in banking. He was a director of the National Bank of Commerce for 35 years, and in 1891 he founded the St. Louis Safe Deposit and Savings Bank, at 513 Locust street. This institution was consolidated with the Mercantile Trust Co. in 1901, and Bell's connection with the Mercantile began then. He was vice president of the Wagner Electric Manufacturing Co. for several years. Bell's favorite theme of conversation was the value of the habit of saving. In his own savings bank, in the '90s, he gave away many small savings receipts, to encourage the habit of having, and these were the basis of savings accounts, some of which are still carried by the Mercantile.

He maintained that St. Louisans were not as well grounded in habits of thrift as were the people of some other cities, and he found the most to commend, in this regard, among the population of foreign birth. The Greeks, he said, were the "savings" of the world.

Seldom Took Vacation.

During his long business career, Bell seldom took a vacation, and his only absence from St. Louis was in 1886 and 1881, when he made a journey around the world. A few days before his ninetieth birthday he went to a baseball game, the first he had seen in 20 years.

His wife died 30 years ago, and he made his home with a daughter, Miss Grace M. Bell. Two other daughters are Mrs. H. P. Johnson of Memphis and Mrs. D. A. O'Gorman of New York. Two grandsons, three granddaughters and two great-grandchildren survive him.

KOERNER INDICTED; SECOND DRY LAW VIOLATION CHARGED

Restaurant Proprietor Faces Both Fine of \$200 to \$2000 and Month to 5 Years in Prison.

Ernest A. Koerner, president of the Merchants' Catering Co., 408 Washington avenue, was charged in a federal indictment yesterday with a second offense violation of the Volstead prohibition enforcement act. The penalty on conviction would be \$200 to \$2000 fine and one month to five years in prison. Under the law the court must assess both fine and imprisonment.

The indictment contains two counts, one that Koerner on May 2 last sold drinks of whiskey to enforcement agents in his saloon. The other count is that on June 5 last enforcement agents found whiskey in a safe in the saloon.

Koerner last spring was fined \$500 on a plea of guilty to a charge of selling whiskey. This was listed as his first offense.

The Grand Jury returned 36 other indictments, most of which were charges of stealing from interstate shipments.

Indictments charging violation of the Harrison Anti-Drug Act were returned against Dr. Thomas S. Manning and against Charles V. Eckert, a druggist, alleged to have filled prescriptions written by Manning, who is now under a two-year sentence for violation of the act.

INCREASED PAY FOR CLERKS

East St. Louis Grocery Employees to Get \$30.25 a Week.

Grocery clerks and delivery wagon drivers in East St. Louis will get a minimum of \$30.25 a week today, and meatcutters will get from \$35 to \$37 a week, under the terms of a wage agreement signed last night by employers and members of the Grocery Clerks and Meatcutters' Union. Clerks and meatcutters' wages were \$27.50 and meatcutters' \$32.50. The increase is retroactive from Nov. 1.

The members of the union recently voted to strike unless their demands were granted. A conference was held for last night, and the negotiations successfully ended. Two hundred men are affected.

ROBBERS GET \$41,000 OF BONDS

Shoot Messenger and Bystander on Chicago Street.

CHICAGO, Nov. 5.—Robbers this morning held up a messenger of the Hyde Park State Bank of Chicago, and escaped with a catchel containing \$41,000 in Liberty Bonds and coupons, in addition to \$257,000 in non-negotiable checks. The messenger and bystander were shot and beaten when they resisted the attack of the four men.

SACRAMENTAL WINE STOLEN

Archbishop Glennon's Residence Entered During His Absence.

There was too many of these "cokes coming in," said Judge Mix. "I am going to be much more severe than I have been on this class of offenders." Heretofore most defendants charged with drunkenness have been let off on payment of \$5 costs. In some cases they were fined \$5.

Sheriff's Slayer Hanged in Oregon.

SALEM, Ore., Nov. 5.—Emmett Bancroft, alias "Ned" Hart, was hanged here today for the murder of Sheriff T. J. Taylor during a jail break at Pendleton, Ore., July 25. Bancroft's execution was the first in Oregon since capital punishment was restored by popular vote last May. "I regret what I have done," were Bancroft's last words. "I feel that God is on my side and I am not afraid to go when He calls me."

TWO UNOFFICIAL MOVES TO SETTLE IRISH QUESTION

Government to Be Asked to Negotiate With Sinn Fein and Withdraw Military to Strategic Centers.

By the Associated Press.

LONDON, Nov. 5.—Two interesting, although unofficial attempts are being made to solve the Irish question developed today. The first of these is an effort to influence political quarters to induce the Government to communicate with the Sinn Fein members of Parliament in order to try to reach a practical agreement and prevent the ruin of Ireland.

The second is the three coalition clubs of Parliament will formally propose a plan for withdrawing the military in Ireland to strategic centers and allowing the local authorities to take the responsibility for the preservation of law and order with the eventual view of negotiating a political settlement of the problem.

NON-PARTISAN LEAGUE SENATOR

Dr. E. F. Ladd Elected Over Democratic Opponent.

By the Associated Press.

FARGO, N. D., Nov. 5.—Dr. E. F. Ladd, chemist, economist and president of the North Dakota Agricultural College, will be the first Non-partisan League United States Senator. It is expected, in view of the admission by the Democratic State Committee that Ladd had won the senatorship over H. H. Perry, his Democratic opponent.

FIVE BOYS ADMIT TAKING NEIGHBOR'S JELLY AND JAM

Lads Concealed Loot Near Their Homes and Had Been Having Picnics Nightly.

Five small boys, all living in the neighborhood of Maryland avenue and Whittier street admitted to the police last night that they entered the home of Hugo Prill, 4146 McPherson avenue, a few days ago, and took all the jelly and jam they could carry away. They hid it around their respective homes, they said, and with bread bought from a nearby bakery, had been having nightly picnics.

The police discovered yesterday that the house had been entered. The family is visiting in Centralia, Ill. When the police asked the young marauders why they also broke up vases and slashed tapestry, they hung their heads and said they did it "just for fun."

The boys are: Milton and Austin King, 11 and 12 years old, brothers, of 4159 Lindell boulevard; Arnold Glass, 12, 4154 Maryland avenue, and Frank Lopresto, 4163 Maryland. Their parents promised to produce them in Juvenile Court if they should be wanted.

NEWS AGENT BOUND AND GAGGED

Two men at 9:30 this morning entered the place of W. Jennings, wholesale news vendor at 3319 Park avenue, and asked for a newspaper of a back date. Jennings went with them into a back room and locked the door. The date wanted, but could not find it, and the men went away.

Ten minutes later they returned and asked if he had a Post-Dispatch of the same date. As he started into the back room again, one of the men pushed a revolver against his back and told him to keep quiet. The robbers bound and gagged Jennings, then took his watch and chain, a \$50 Liberty bond and asked \$100 in cash. Jennings told the police he would recognize either of the men. It was the second robbery of a news agent within the last two weeks.

48,022 Increase in Autos.

JEFFERSON CITY, Mo., Nov. 5.—Licenses have been issued to 292,335 owners of automobiles in Missouri in 1920. James J. O'Connor, supervisor of the automobile department of the Secretary of State's office, announced.

In the state treasury to the credit of the good roads fund, \$2,101,109, an increase of \$20,063 over the amount in the fund in October. The registration of automobiles this date shows an increase of 48,022 over the year of 1919. The increased revenue over the preceding year is \$356,032.14.

PROCEEDINGS BEGUN TO OUST G. O. P. CITY COMMITTEEMAN

Robert D. Claxton Alleges He Was Elected to Place in Primary Instead of J. Joel Wilson.

Robert D. Claxton yesterday filed quo warranto proceedings to oust J. Joel Wilson as a member of the Republican City Committee from the Twenty-sixth Ward. The petition alleges that the plaintiff was elected to the office in the primary of Aug. 2, and that the defendant is a usurper. Previously Claxton had filed

suit asking for a recount, but the case was dismissed on the ground that the primary law does not provide for the opening of the ballot boxes in an election contest.

On the face of the returns Wilson received 1144 votes and Claxton 1125. Claxton charges that in the Fifteenth Precinct of the ward 158 votes were counted for his opponent and only 10 for him, a total of 168. In point of fact, it is alleged, there were not this many lawful votes cast in the precinct, the actual number, it is alleged, being 129, of which 71 were for Claxton and 58 were for Wilson. It is alleged that election

officials there counted for Wilson 18 ballots of men who did not, in fact, vote at the election, another ballot of a man who voted the Democratic primary ballot, two ballots of voters who had voted for Claxton and eight ballots of persons who no longer lived in the precinct. The petition contains the names of the electors.

Wilson has served several terms as committeeman. He is an assistant prosecuting attorney under Howard Sidener. The quo warranto was assigned to Circuit Judge Hogan.

MOVIE EXPLOSIONS DIRECTOR KILLED BY BLAST IN GARAGE

Building Blown to Pieces and Two Automobiles in It Wrecked at Fort Lee, N. J.

Special to the Post-Dispatch.

NEW YORK, Nov. 5.—Henry McAvoy, 35 years old, a location manager and director for the Fox Film Co., was injured by a mysterious explosion in his garage at Fort Lee, N. J., yesterday afternoon and died half an hour later. The garage was blown to pieces and two big automobiles in it were wrecked.

The police said they were convinced McAvoy was experimenting with explosives for moving picture work. They discarded an earlier theory that the cause of the explosion was lighting a match in a place full of gasoline fumes.

Several sticks of dynamite were found in the ruins and a large quantity of inflammable materials and explosives used in moving picture work, which film people told the police were especially dangerous. Another discovery was a three-inch shell of the type scattered over the countryside in the explosion at the

Kingsland plant during the war. A box half full of 48-70 shells and several recently exploded shells were on the ground surrounding the ruins.

The front of McAvoy's body was mutilated from his chest to his feet, indicating that he was bending over the place which was the center of the explosion. His body was found beside the wreckage of the automobile that was most damaged.

McAvoy was a specialist in handling explosives for the movies and had charge of spectacular scenes in the blowing up of bridges and towns. A few months ago he staged and di-

rected the destruction of an improvised town at Boonton, N. J., as part of a war picture. He had been with the Fox company several years and was considered one of the best men of a war picture. He had been with the Fox company several years and was considered one of the best men of a war picture. OVERCOATS

WE ARE LEADING THE WAY IN LOWERING PRICES!!

Saturday is Overcoat Day in this great campaign to lead the way in lowering prices. We will demonstrate to you, beyond the shadow of a doubt, the immensity of the savings now offered in our great Overcoat Department—the largest in St. Louis. The unusually low prices in this announcement tell only part of the story, however. To fully appreciate the exceptional values you must see the large assortments conveniently displayed on our large open racks, where you can examine the splendid quality of fabric and tailoring—where you can try them on—and where you can select just the garment you desire. You'll find materials to please the most discriminating—styles for extreme or conservative dressers—sizes for slims, stouts and regulars—and values that prove conclusively that we are far in the lead in the campaign for lower prices. Don't miss this wonderful opportunity. Even if you aren't ready, it will be worth while to investigate. You'll be sure to find the greatest values you've seen in years.

AMERICAN FLAG RECEIVES OVATION IN ITALIAN PARADE

Celebration at Home of Second Anniversary of Armistice With Austria; Ex-Soldiers March.

ROME, Nov. 5.—Representatives of all regiments of the Italian army, gathered from all parts of Italy, marched in the great parade held yesterday to celebrate the second anniversary of the armistice with Austria which, so far as Italy was concerned, ended the great war. The men, all of whom fought during the war, marched through the main thoroughfares, bearing their regimental flags and singing patriotic songs amidst the applause of im-

mense crowds which lined the streets.

Those who engaged in the parade were, for the most part, simple peasants and workmen. The majority of them did not wear uniforms, but proudly carried Italian flags and bore on their breasts decorations won during the long struggle.

An idea of the splendor of the procession may be gained from the fact that nearly 2000 flags were borne through the streets. The American flag, carried by the director and students of the American Academy here, received a very warm ovation.

King Victor Emmanuel received continuous applause as he drove through the streets to the base of the King Victor Emmanuel monument, where he bestowed gold and

silver medals on regiments and warships for their services during the war.

MAN STRUCK BY TRAIN DIES

William Conley, 23 years old, of 6711 Mitchell avenue, a machinist, died at the city hospital at 8:20 last night from injuries suffered when run over at 4:15 p. m. by a Missouri Pacific Kirkwood accommodation train, in front of the plant of the Scullin Steel Co., 6790 Manchester avenue, where he was employed. His skull was fractured.

Conley was going home from work and was crossing the tracks from south to north. The train did not stop after the accident, an official of the steel company said.

FAMOUS-PLAYERS LASKY FILE SUIT AGAINST KOPLAR

A suit to compel Harry Koplar of 5511 Pershing avenue to fulfill the terms of an agreement entered into on Aug. 4 by him and his brothers, Sam, Nat and Sol Koplar, by which it is alleged that they bargained to sell the Arco, Royal, Cherokee, Gravois, Lafayette and Novelty motion picture theaters for \$280,000 was filed today in Circuit Court by The Famous Players-Lasky Corporation of New York, and its St. Louis subsidiary, the Famous Players Missouri Corporation, of which Fred L. Cornwell is president.

The theaters named, with 11 others controlled by the Koplars, were turned over to the Famous Players Corporation last March. It was said at the time that the purchasers were to pay \$1,250,000. The deal since has been the subject of several court actions, and has not been settled.

GOMPERS FINDS BENEFIT TO LABOR IN ELECTION

More Union Men and Friends of Workers Have Won for Congress.

Associated Press.
WASHINGTON, Nov. 5.—Samuel Gompers, president of the American Federation of Labor, declared today in a statement regarding Tuesday's election results that the nonpartisan policy of the Federation had been completely justified and that the results of the election were more convincingly demonstrated.

Gompers declared that "every forward-looking man and woman must have deep regret because of the plunge towards reaction." "The democracy will right itself in proper time," said Gompers, "and the actual tabulation of results in Congress, the law-making body, shows a definite and decided gain for all that makes for progress and responds to the needs of our time."

Union Men Elected.
Gompers asserted that every man in the house whose "record of service was perfect has been re-elected," and added that the new Congress will show an increased number of men who hold union cards.

Referring to the congressional elections, Gompers said: "Incomplete checking already showed 'that 50 Congressmen who were inconsiderate and hostile have been defeated.' This is one of the most impressive features of the entire election," he said. "Fifty time-servers have been beaten."

Against these 50 the working men have elected from 55 to 60 whose records show fair and considerate service. This represents

a clear gain for integrity in government."

Gompers claimed the election to Congress of at least 15 union men, and said it was probable that the final counting would show "more than 20, possibly 25."

"The nonpartisan campaign of the American Federation of Labor," the veteran leader continued, "was primarily and most effectively a campaign in congressional districts. Its results were gained in the primaries and in the election. These results will serve as a constant reminder to all servants of special privilege and the ever-present and always impressive fact will be before the new Congress that 50 of the unfaithful and the hostile workers of our republic."

Justice of the Cause.
"A notable American has said, 'I would rather be right than be president.' To be engaged in a righteous cause, to fight for freedom, for justice, for peace and human brotherhood, is of greater concern to the human family than is a passing success. The labor movement of America recognized the tremendous struggle of the masses of people in all history to obtain the right, and the setbacks and the sacrifices they have had to make, decade by decade, cycle by cycle, in the march and the trend of the cause of freedom of America, forward, onward and upward."

"Shortly the names of the men who have been fair and just and who have been re-elected and those

who have been unfair and antagonistic and defeated will be published by the American Federation of Labor."

MILLIONAIRE GOES TO PRISON

By the Associated Press.
CLEVELAND, O., Nov. 5.—George Myers, millionaire manufacturer of Toronto, is here late yesterday for Atlanta to serve a five-year term in the penitentiary. Myers arrived here from Toronto Wednesday without a guard and surrendered to the Federal authorities. He was convicted two years ago under the Mann act, but delayed imprisonment by appeals.

IF BACKACHY OR KIDNEYS BOTHER

Eat less meat, also take glass of Salts before eating breakfast.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. When the kidneys clog you must help them flush off the body's waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from back ache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

GIRL SUES C. E. HIBBARD FOR \$250,000 DAMAGES

Telephone Operator Alleges Lumber Dealer Broke Promise to Marry Her.

Suit for \$250,000 damages, alleging breach of promise to marry, was filed yesterday by Miss Lillian Lee of 2414 North Grand avenue, a telephone operator, against George E. Hibbard, 718 Belt avenue, president and general manager of the Steele & Hibbard Lumber Co. Hibbard, who is 54 years old, was married at Clayton on October 24 to Miss Hilda Jackson of 1449A Sullivan avenue.

Miss Lee alleges in her petition that for several months prior to September 2 she was courted by Hibbard and that he proposed to her on that date. She said that he manifested great love and affection for her and that he used every artifice to impress upon her mind that her love and company were indispensable to his happiness.

Suffers Mental Anguish.
As a result she became wholly "wrapped up in him" and accepted his offer of marriage, she says. She says that thereafter he announced to various persons that he was going to marry her and she was greatly shocked when his marriage to Miss Jackson was announced. She asserts she was rendered ill and suffered mental anguish; also she was greatly humiliated.

Miss Lee, when seen by a Post-Dispatch reporter, refused to discuss her suit. Hibbard denied that he was engaged to her. The petition avers that he is worth \$1,000,000. His first wife died in 1908. His present wife, before her marriage, kept house for her father and her two sisters, Jessie and Fern. The latter also is a telephone operator. Her sister Jessie recently resigned from the Tri-City telephone exchange to get married.

Arrangements for the marriage of Hibbard and Miss Jackson were made by William A. Weston, 1225 Shawmut place, and the marriage was witnessed by Weston and his wife and Miss Fern Jackson. There was doubt about the bride's age and her sister made affidavit to the license clerk at Clayton that she was 22.

Member of Several Clubs.
After the marriage the wedding party went to the Century Boat Club, where a surprise wedding dinner, attended by about 25 of Hibbard's friends, was waiting. Hibbard said he met Miss Jackson a year and a half ago and that they had been keeping company ever since. He is a member of the Century Boat Club, the Riverview Club and Sunset Hill Country Club.

Woolen Mills Cut Schedule.
By the Associated Press.
LAWRENCE, Mass., Nov. 5.—The four mills of the American Woolen Co. in this city closed last night for the rest of the week, and Monday will go on a four-days-a-week schedule. They have been running upon a six-day schedule, but, according to the agents, with only about 50 per cent of their personnel. Lack of orders was given as the reason for the curtailment.

AFTER ANY ILLNESS THE BLOOD IS WEAK

If You Get Well Slowly, Try
Building Up Your Blood

IT'S BLOOD THAT FEEDS
BODY

Pepto-Mangan Creates Rich, Red
Blood, Changes Pale Complex-
ions to Bloom of Health

A serious illness, even a cold that is
hard to shake off, can reduce the
blood to a weak, watery condition
which keeps the normal strength and
vigor from coming back.

This poor physical condition brings
on a helpless, discouraged mental con-
dition which rich, red blood can re-
store.

Pure blood should be rich in iron
which Nature supplies to some extent
in food. But often through faulty di-
gestion or improper diet you don't get
the needed iron, and your blood, on
which your health depends, grows
weaker and weaker.

Gude's Pepto-Mangan enriches the
blood, increases the red blood cells and
supplies the ingredients that bring a
quick response in vigor, vitality, and
fine color.

Physicians recommend Gude's Pep-
to-Mangan. When you order, be sure
the word "Gude's" is on the package.
Without "Gude's" it is not Pepto-
Mangan. Furnished in both liquid and
tablet form. For sale by all druggists.

FIGHT ON TYPHOID TO BE TAKEN TO LEGISLATURE

Board of Health to Present Bill Providing for State Sanitary Engineering Department.

Backed up by recommendations and reports of sanitary engineers of the United States Public Health Service, who have been studying the water systems and sewage carriers of the smaller communities of Missouri, the State Board of Health will submit to the next Legislature a bill providing for the creation of a State Sanitary Engineering Department to take up the work has been having tests made at the University of Missouri and where bacillus coli is found in samples the community involved has been warned to remedy conditions.

The United States Government has been aiding the small towns in this work ever since the Revolutionary War," said Lieut. Connolly, "but now finds that it can no longer afford to devote the necessary time and funds to the cause, so, therefore, within the next year or so each state will be thrown upon its own resources, and unless the next Legislature does something Missouri will be without proper supervision of its water and sewage for the next two years.

Typhoid Due to Sewage. "The people do not seem to realize the importance of this sort of work. While it is true that a certain percentage of typhoid is traced to milk, the greatest percentage by far is due to inadequate sewage and water facilities. The Government exercises supervision over railroad water supplies, but has no jurisdiction over individual states.

"When we have finished our work here we will report to the State Board of Health and make recommendations for improvements and the Board of Health will use the information we furnish in an effort to get the Legislature to provide suitable measures for state supervision of these two important branches of community development."

Lieut. Connolly said that he had made arrangements for well-known authorities on disease to write articles on the relationship between lack of proper sanitation and typhoid fever, and he hopes to have these articles published so that the people of the State will become aroused as to the value of pure water and proper drainage.

Canadian Brewery Stocks Drop. By the Associated Press. MONTREAL, Nov. 5.—Affected by a feeling that the Republican victory in the United States was favorable to prohibition, National Breweries stock yesterday afternoon fell from 60 to 34 1/4 on the local exchange.

When we have finished our work here we will report to the State Board of Health and make recommendations for improvements and the Board of Health will use the information we furnish in an effort to get the Legislature to provide suitable measures for state supervision of these two important branches of community development."

**COURT ORDER ENDS FIGHT
TO ENFORCE CLOSED SHOP**

Seizing Injunction Granted to
Boston Shoe Factory Where
Strike Began in May, 1919.

BOSTON, Nov. 5.—A strike of
shoemakers which began at the fac-
tory of the Thomas G. Plant Co. on
May 15, 1919, in an effort by labor
unions to enforce a closed shop, is
ordered to cease in an injunction
granted by the Superior Court to-
day.

Local unions of the United Shoe
Workers of America and of the Al-
lied Shoe Workers' Union of Greater
Boston are enjoined perpetually by
the decree from any attempt to
bring about a closed shop, from pro-
ceeding with the existing strike of
any further strike for that purpose,
from paying strike benefits, intimid-
ating employees, picketing the plant
and from circulating either em-

ployes or the public on the subject.
The injunction is said to be one of
the most sweeping ever granted by a
court in this State.

JUDGE ARMISTICE DAY SPEAKER

Boston Jurist Accepts Invitation—
Observance Nov. 14.

Judge Michael J. Murray of the
Superior Court, Boston, has accepted
an invitation to be the principal
speaker at the Armistice day cele-
bration in the Municipal Theater,
Sunday, Nov. 14.

Invitations to participate have
been sent to all patriotic, civic and
auxiliary societies that were active
in war service, and these societies
have been requested to communi-
cate with the Armistice day head-
quarters, 1003 Syndicate Trust build-
ing. Plans for the celebration pro-
vide for a parade, from King's high-
way and Lindell boulevard through
Forest Park to the Municipal The-
ater.

**WEAVER AND M'MULLEN GIVE
\$10,000 BOND EACH AT CHICAGO**

Two Other Ball Players Expected to
Surrender at State's Attorney's
Office Today.

CHICAGO, Nov. 5.—George
"Buck" Weaver, third baseman, and
Fred McMullen, utility player, of the
White Sox, surrendered to the State's
Attorney's office today and gave
\$10,000 bonds each to answer to in-
dictments charging them with com-
plicity in the conspiracy to throw
the 1919 world's series.

They are the first of the 13 ball
players and gamblers indicted last
week to appear here, but "Swede"
Risberg and "Happy" Felsch are ex-
pected later today.

"The charges against us are a
fabrication, and we can prove it,"
Weaver told newspaper men. "We
ask the baseball public to withhold
judgment until we have had a
chance in court to prove the charges
against us are untrue."

**JUDGE SHIELDS' HIP FRACTURED
WHEN WOMAN'S COUPE HITS HIM**

Circuit Judge, George H. Shields
suffered a fractured hip while cross-
ing Pine street at Broadway at 5 p.
m. yesterday, when knocked down
by an electric coupe driven by Miss
Letticia Parker of 501 Clara avenue.
He is in St. Luke's Hospital, where
it is said he is resting easily after a
rather restless night.

The Judge, who is 78 years old,
had stepped from behind a street
car and was just about to step on
the curb, when Miss Parker, who
did not see him come from behind
the car, started her machine slowly.
The Judge is said to have hesitated
an instant as he reached the curb
and the car threw him to the street.

Miss Parker stopped at once and
passersby helped the Judge into her
machine. She took him to his home
at 365 Delmar boulevard, whence
he was sent to the hospital.

Grocer Hit on Head in His Store
and Robbed of \$5.

Frank Golder was within a few
feet of the door of his home, at 4545
Laclede avenue, at 11:20 o'clock last
night, when two men with revolvers
jumped out of a weed patch and
commanded him to hold up his
hands. He hesitated, then bolted
for his house. He got inside in
safety.

Jeremiah Corbett, owner of a gro-
cery at 602 South Garrison avenue,
was hit on the head with a club by
one of two men who entered last
night and priced some goods. They
took \$5 from the cash register and
ran.

**MRS. PEETE SAID TO
HAVE LEAD LURID LIFE**Woman Held in Denton Killing
Was Divorced for "Outrageous Conduct."Special to the Post-Dispatch.
DALLAS, Tex.—Divorced by her husband and involved in the death of another man here, Mrs. E. C. C. Peete, held in Los Angeles for the murder of Jacob C. Denton, wealthy mine worker, whose body was found sealed in the secret cellar of his home last July, led a lurid life in Dallas, according to court and grand jury records and police blotters here.

Mrs. Peete was known here as Mrs. Louise E. Bosley, the wife of Henry R. Bosley. According to the divorce petition filed by her husband in the District Court here in the fall of 1919, they were married in Webster Parish, La., on Nov. 16, 1904, and came to Texas in 1907. They lived together until September, 1910.

Mrs. Peete was "guilty of excessive cruel treatment and outrageous conduct," according to the divorce petition. Beyond that explicit charges were not made. J. Willis Pierson, attorney for Bosley, refuses to discuss the petition of the trial, and the Judge who granted the divorce is dead.

The police records show that Mrs. Peete, who remained in Dallas after she was divorced by her husband, was investigated in connection with the suicide of a hotel clerk here in 1912. Mrs. Peete was held for a time by the police because it was said she had been with the clerk frequently prior to his death and a short time before he was shot to death. A large diamond which the clerk wore at all times was not found on him when his body was found and the police thought Mrs. Peete obtained it. The investigation failed to fasten the crime on the woman and she was released. The detectives asserted the absence of powder burns on the man's body indicated that he did not end his own life. The grand jury probed the matter but reported that insufficient evidence had been found upon which to base a charge against the woman. Just when Mrs. Peete left Dallas is not definitely known. The records of the Dallas courts, grand jury and police department in connection with all bearings upon the activities of Mrs. Peete while here have been asked for by the Los Angeles authorities and will be forwarded at once. It is said several of the police now on the force, who investigated the suicide and murder theories in connection with the death of the hotel clerk, will be called to Los Angeles to testify in the case when the trial of the woman is called.

Mrs. Peete, while here, was regarded as a very pretty and attractive woman.

AVIATOR'S FUNERAL TOMORROW

Funeral services for Lieut. Kenneth M. Copley, son of Mr. and Mrs. Charles W. Copley of 327 Newport avenue, Webster Groves, who was accidentally killed at Issoudun, France, on April 29, 1918, while with the A. E. F., will be held tomorrow afternoon from the undertaking parlors at 3546 Lindell boulevard, at 2:30 o'clock. Interment will be in Memorial Park. The body arrived in New York last week.

Lieut. Copley was in the air service, and was testing airplanes before being assigned to a squadron. An airplane he was testing fell, and he was killed. He was 27 years old, and resided in Chicago. His wife, Mrs. Grace Copley, who lives in Oak Park, Ill., is at the Copley home in Webster Groves now.

**NO SHORTAGE OF BITUMINOUS COAL, OPERATOR SAYS****"So Much Coal in New England Manufacturers Are Stopping Shipments," Head of Association States.****SENATORS TOLD OF HANDLING OF CRISIS****Tumulty, Head of Operators and Railroad Representative Directed Movements, Adviser Declares.**

NEW YORK, Nov. 5.—D. H. Wentz of Philadelphia, president of the National Coal Association, comprising bituminous coal operators declared there was no shortage of bituminous coal in the United States, in his testimony here yesterday before the United States Senate Committee on Reconstruction and Production, investigating the coal situation.

"The production of bituminous coal for the month of October, 1920, is practically the same as for October, 1918," he said. "At that time a tremendous effort was made to have each miner mine all the coal possible because of the war. The tonnage for October of this year without any special effort is about the same as 1918."

Wentz said there is such "a great supply of coal in New England" that many of the contractors have stopped shipments on their contracts. He also declared that both spot prices and contract prices as they are now are fair and reasonable.

Coal Shipped to Europe. He testified that coal shipped to Europe is being sold on a 12-month contract for \$8.50 a ton. He was asked by Senator William E. Calder, chairman of the committee, why that price should not prevail throughout the country and he replied that a comparatively small percentage of bituminous coal goes to Europe.

The chief director of operations in the worst days of the coal crisis last summer was not the Interstate Commerce Commission, but J. P. Tumulty, secretary to the President, acting with representatives of the railroads and the coal operators, according to a statement by Franklin T. Miller, advisor to the Senate Committee.

Miller said that Secretary Tumulty had held daily meetings for three weeks with Wentz, and a representative of the railroads, and that decisions regarding the diversion of coal from this or that mine to this or that section of the country were made at these conferences. The decisions of these conferences were put into effect by the Interstate Commerce Commission, Miller said.

Says Operators Benefited. The arrangement, according to the committee's adviser, was of vast financial benefit to coal operators, because their contracts stipulated that they became null and void, if Interstate Commerce Commission orders rendered it impossible to carry them out. Operators were enabled to dodge the performance of contracts for the sale of coal at low contract prices, and to dispose of their coal at high figures, according to Miller.

Wentz admitted that he had held these conferences with Tumulty and with a representative of the railroads during the most desperate period of the coal situation last summer, and he asserted that these meetings had saved the country from a far greater chaos than it would otherwise have experienced in the matter of coal and transportation.

While he was testifying before the committee he denied emphatically the inference that politics and financial interests had been taken into consideration at the conference regarding coal. Wentz admitted that he had said in a speech to coal men at Cleveland that the conferences had been of great benefit in "meeting political situation," but he denied that he meant that coal was allotted with the intention of making political capital for the Democrats or anybody else.

Denies Playing of Politics. "At no time," he said, "did Mr. Alford (the representative of the railroads) or Mr. Tumulty or I have any discussion of the situation from a political standpoint. Our efforts at co-operation were to secure results which would increase the supply of bituminous coal mined in the United States, and those efforts were successful."

"When you used the word political, you meant the demands from Governors of States and other officials and organizations of Democrats and Republicans alike," asked Senator Calder.

"Exactly," replied Wentz. While examining Wentz, Miller said a statement embodying several statements which Wentz is alleged to have made in a speech at an executive session of the National Coal Association in Cleveland on Oct. 26, as reported in the Black Diamond. The statement said:

"In paragraph marked 4, Col. Wentz is quoted as having said in substance that in the latter part of June, Mr. Tumulty selected Mr. Alford, of the Railroad Administration, to be his coal adviser, as Mr. Tumulty was too busy a man to confer with all the people who went to the White House to complain of the coal situation."

JAPAN EXPECTED TO LODGE PROTEST ON CALIFORNIA LAW

Official Quoted as Saying It
Will Be Contended That
Country's Treaty Rights
Are Violated.

By the Associated Press.
TOKIO, Nov. 5.—When confirma-
tion has been received that the peo-
ple of California have voted in fa-
vor of the proposed land law in that
State, Japan will lodge a protest in
Washington, pointing out the mea-
sure conflicts with Japanese treaty
rights, according to the Toruzo Cho-
ho, an independent organ, which
quotes a Foreign Office official to
this effect.

Formal negotiations, the news-
paper says, will follow and an agree-
ment made permanently removing
the cause of the trouble.
The Hochi Shimbun reports that
M. Shidehara, Japanese Ambassador
in Washington, and Secretary of
State Colby have reached an agree-
ment by which Japan will stop im-
migration to the United States, in
return for which America will ac-
cord Japanese now in America the
same treatment as other foreigners.

Marquis Okuma, former Premier,
interviewed by the Toruzo Cho-
ho, declares that "only thoughtful peo-
ple have talked of war between Ja-
pan and America over California."

"If Japan fights with arguments
of dignity and impartiality," he is
quoted as saying, "Americans will
act justly."

The defeat of Gov. Cox is attrib-
uted by Marquis Okuma to the
League of Nations, which he declares
"even democrats dislike." He does
not anticipate the Republican ad-
ministration will raise the tariff,
owing to economic difficulties.

The early news of the results of
the presidential election in the United
States was received in quick time
and printed in Wednesday's evening
newspapers. The greatest interest
ever shown in an American election
was manifest everywhere, this being
due largely to the issue of the Cal-
ifornia voting on the legislation af-
fecting the Japanese.

The result of the balloting, espe-
cially in California, was received
with no surprise and evoked no
demonstrations.

Summary of Press Comment.
Summarizing the early press com-
ment yesterday morning Reuters
Limited says:

"While noting that serious losses
are likely to fall on the Japanese
in consequence of the passage of the
referendum the newspapers express
confidence that the question will be
happily solved, that the change in
Government will make no difference
and that the Federal authorities in
America will continue to show sin-
cerity and sympathy toward Japan
similar to the Wilson administration.
They urge that the claim for jus-
tice be pressed confidently and
energetically."

The Nichi-Nichi says:
"Certainly the Americans, whose
history glorified Washington as an
incarnation of peace and Lincoln as
an emblem of liberty, will no longer
be entitled to talk of peace and lib-
erty, inasmuch as they have allowed
the passage of the anti-Japanese
bill, so entirely incompatible with
common sense, justice and human-
ity."

Land Law Adopted in California by
a Three-to-One Vote.

By the Associated Press.
SAN FRANCISCO, Nov. 5.—Cal-
ifornia, by a three-to-one vote Tues-
day, passed the "anti-alien land
law," a measure intended to restrict
tenure of land by non-assimilable
aliens. The measure recently was
the subject of diplomatic exchanges
between the State Department and
the Japanese Foreign Office. Re-
turns from 5413 of the State's 6134
precincts showed 433,915 voted to
adopt the measure, with 163,761
against it.

The measure was initiated to halt
what its sponsors termed "encroach-
ment" of Japanese on California
lands through leasehold and actual
purchase. It is designed to replace
the present alien land law, passed in
1917, which prohibits ownership of
land or leases extending beyond
three years, by aliens ineligible to
citizenship.

The new measure forbids purchase
of leaseholds for any length of time
by such aliens. Further provision is
made against control of land by cor-
porations in which they are domi-
nant, or through guardianship of
their American-born children who
are eligible to citizenship and there-
fore privileged to own land.

Negotiations to Be Resumed at
Washington Next Week.

By the Associated Press.
WASHINGTON, Nov. 5.—Formal
protest by Japan against the adop-
tion of the anti-alien land law by
California would be a usual course
in diplomatic procedure, according
to international lawyers here. Such
action, it was explained, would be
comparable to the filing of an objec-
tion by an attorney in the hearing of
a lawsuit and the effect would be to
safeguard Japan's position in the
diplomatic exchanges.

Discussion of the California law,
which was begun many weeks ago by
State Department officials and the
Japanese Ambassador, will be re-
sumed early next week, and at that
time it is expected an agreement will
be reached which can be submitted
for the consideration of the Japa-
nese Government. The conferees are
said to have reached enough common
ground to cause them to hold the
hope that an acceptable course of
procedure will be mapped out.

A STRANGE PETITION

In 1680, the Governor of
Maryland received a strange
petition from the inhabitants
of one of the islands in Ches-
apeake Bay.

They implored him to send
them food because starvation
was compelling them to dig up
oysters and eat them.

Today, digging up oysters is
an important industry; and
eating them at CHILDS, one
of the pleasures of the table.

Rich, creamy oyster stew,
full of the savory tang of
the sea.

Chas. O. Emerson

YOUNG MEN! TAKE NOTICE!

THIS brand new Brogue of mine is designed solely for young men—
and older men who want to stay young.

It is the smartest brogue pattern on the market today—more snap and style to it
than you've ever seen before.

Made of genuine Imported Scotch Grain Leather that gives it plenty of swagger,
with a rawhide doubler in between the heavy oak sole to keep it waterproof.

Many stores are offering a shoe of similar quality at \$5.00 a pair more than I ask.
That is where my policy of stamping the actual retail price on the soles at the
factory protects you. This price is based on the cost of materials and labor used.
You don't have to pay extra for an extraordinary shoe.

This new brogue is only one of many of my attractive styles. Come in and let us show you how
you can get more for your money in an Emerson Shoe than in any other.

MONEY LENDER MISSING WITH \$158,000 WORTH OF JEWELS

Fifty New York Jews Ask for Arrest
of Man Said to Have Sailed
for France.

By the Associated Press.
NEW YORK, Nov. 5.—Fifty Rus-
sian Jews, asserting that they were
swindled out of \$158,000 in valuables
by "good townsmen from the old
country," who loaned money to them
on their jewelry, have asked the po-
lice to find Israel Krumholz, the
money lender. The police issued a
general alarm for his arrest, and
sent a wireless message to the
steamer "Rochambeau" when they
heard Krumholz sailed aboard it
last Thursday for Le Havre.

The police said Krumholz loaned
money to "townsmen needing it,"
holding their valuables while they
created their debts by occasional
small payments. Recently he said
he expected final payments on Nov.
1 and would return the family jewels
and other holdings then. He could
not be found, and a law student in-
serted an advertisement in a Jewish
journal calling a meeting of all per-
sons who had had dealings with
Krumholz. They compared notes,
concluding they had been "fleece-
d." Hyman Krumholz, the nephew of the
money lender, was arrested on sus-
picion of acting in concert with his
uncle, the specific larceny charge
concerning a \$300 diamond ring
owned by Mrs. Lena Edelman. The
police found him wearing the ring
and also a sparkling diamond clus-
ter. Hyman said his uncle gave him
the pin and \$600 in payment of an
\$800 debt.

PARTIES OF ORPHAN CHILDREN GUESTS AT OLYMPIAN CIRCUS

Matinee Tomorrow at Coliseum De-
signed as School Children's Mat-
inee—Circus to End Sunday.

More than 1000 children, most of
them orphans, have attended various
performances during the week of the
Olympian circus in the Coliseum. The
circus is being conducted by the
Catholic Women's League.
Fifty wards of the Board of Chil-
dren's Guardians, with Philip Scan-
lan of 4450 Lindell boulevard, as
host, will attend the circus to-
morrow afternoon. Samuel Plant of
Clayton yesterday entertained 80
boys from the Methodist Orphan As-
ylum in Clayton, and Mrs. Ralph Mor-
ris of 29 Washington terrace was
hostess yesterday afternoon to chil-
dren of the Father Dempsey Day
Nursery. A. V. Reuburn, trust offi-
cer of the Mercantile Trust Co., took
several of the wards of the Oblate
Sisters, in Normandy, to the matinee
performance yesterday. Another
party yesterday was 200 boys and
girls from St. Mary and Joseph's Or-
phanage. Fifty soldiers from Jeffer-
son Barracks were guests of the
management last night.
The matinee tomorrow has been
designated as school children's day.
The closing performance will be
Sunday night.

CHICAGO CHILDREN'S PENNIES NUCLEUS FOR FIELD MONUMENT

\$9920.25 Saved by Youngsters to Go
Into \$25,000 Memorial for Child's
Poet in Lincoln Park.

CHICAGO, Nov. 5.—Announce-
ment was made on the twenty-fifth
anniversary of the death of Eugene
Field, the children's poet, yesterday,
that funds for a Field memorial
monument at Lincoln Park had been
raised. Ever since his death Chi-
cago children have been adding their
pennies to the slowly growing fund
of \$25,000 which was completed by
action of the Art Institute trustees
who voted to supplement the
\$9920.25 children's collection.
Johannes S. Gellett and Eugene
McCarten, New York sculptors, have
submitted two models for the memo-
rial.

WAITRESSES SUE PROPRIETOR

Two Pickets Charge E. A. Benish
Called Them Names.

Miss Elizabeth Norton, 1718A Ne-
braska avenue, and Miss Crescent
Murr, striking waitresses, filed suit
yesterday against Edward E. Benish,
proprietor of a cafeteria and grill
room in the Chemical Building and
secretary of the Hotel and Restau-
rant Men's Association, asking for
damages. Miss Norton sues for
\$7500, alleging that while she was
doing picket duty in front of Benish's
restaurant on Oct. 6 he called
her names and expectorated on her
dress. Miss Murr also sues for the
same amount, charging Benish used
vile names toward her.

Body Enveloped in Flames as He
Sought to Free Himself.

Tony Cullotto, 9 years old, who is
supposed to live in the vicinity of
Fourteenth and O'Fallon streets, was
shocked and seriously burned by a
live wire that fell from a pole in
front of 1403 O'Fallon street as he
was passing at 6 p. m. yesterday. He
regained consciousness at the city
hospital long enough to give his
name, but could not give his ad-
dress.

COW SETS NEW MILK RECORD

By the Associated Press.
SEATTLE, Wash., Nov. 5.—Car-
nation Segis product, owned by the
Carnation Stock Farms, near here,
established a new world record for
milk production with a total of 33-
469 pounds of milk in 314 days, ac-
cording to announcement by A.

I know that my statement will make no difference in its cardinal principles, that it will always fight for progress and reform, never tolerate injustice or corruption, always fight for the rights of the people, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

LETTERS FROM THE PEOPLE.

Live Stock and Meat Prices.
To the Editor of the Post-Dispatch.

Your issue of September 19th has a letter signed by C. A. Jones, in which he requests Swift & Co. to explain the difference between the price of livestock and some of our manufactured products. There are five questions in Mr. Jones' letter and we shall answer them as briefly and concisely as possible.

Mr. Jones asks:
1. Why does the dressed meat from hogs that sell for 5 cents to 8 cents under the top sell for just as much on the block? We understand that the most choice breakfast bacon and hams are made from these lighter hogs that sell for less money than the heavier grades.

Mr. Jones' impression is not in accord with market reports. The Chicago Daily Drivers Journal reports:

WEEKLY RANGE OF LIGHT AND HEAVY HOGS AT CHICAGO.

	Heavy Packing	Light Packing
W. E. Selected Shipping, Selected Shipping		
1920.	255 @ 400 Lbs.	135 @ 195 Lbs.
July 31...	12.75 @ 15.75	14.75 @ 16.15
Aug. 7...	13.00 @ 15.75	15.25 @ 16.40
Aug. 14...	13.00 @ 15.75	14.50 @ 16.30
Aug. 21...	13.00 @ 15.75	15.00 @ 16.10
Aug. 28...	13.00 @ 15.50	14.40 @ 15.85
Sept. 4...	13.50 @ 15.90	14.75 @ 16.25
Sept. 11...	13.75 @ 16.50	15.00 @ 16.85
Sept. 18...	14.50 @ 17.40	16.15 @ 18.00
Sept. 25...	15.00 @ 18.00	16.25 @ 18.25

This table shows that the lighter hogs referred to by Mr. Jones, instead of selling from 5 to 8 cents lighter, have actually brought an average of about \$1 per hundred more than the heavier hogs since July 31st!

2. "Why does he sell the dressed beef from fat heifers that he pays 10 cents for at the same time that which he pays for in steers that he pays from 11 to 13 cents for?"

Fat heifers cannot be purchased at 5 cents a pound or anywhere near that price. Heifers and steers of the same quality sell for approximately the same price.

On Sept. 14 we bought a lot of heifers averaging 1030 pounds at \$14.56 per hundredweight, yielding \$6.89 per cent dressed beef and \$22.81 per hundredweight. A lot of steers averaging 1270 pounds, bought at \$14.25 per hundredweight, yielding \$8.55 per cent, dressed out at a cost of \$22.36, or \$1.45 per hundredweight lighter than the heifers.

3. "Why a farmer has to take 5 cents a pound for a green hide today & 8 cents while the consumer pays from \$1 to \$1.25 per pound for leather?"

The issue of Hide and Leather for Sept. 13, 1920, quotes heavy steer country hides at from 18 to 20 cents per pound; the lowest price, which is on branded hides, is from 12 to 13 cents a pound. On page 53 of this same publication sides of hemlock sole leather (cattle hides are used mainly to produce sole leather) are quoted from 40 to 53 cents per pound. Both hide and leather markets are in a state of inactivity. Some of the larger tanning companies have stopped paying dividends. Swift & Co. is not engaged in the tanning business, and we handle hides from our own cattle operations only.

4. "Why does the market have to fluctuate from 10 to 50 cents daily and laws of supply and demand have nothing to do with it?"

Fluctuations in the price of cattle are caused by variations in the supply of cattle and also by changes in the prices of beef, hides and byproducts. In other words, supply and demand, conditions only are responsible for the price fluctuations instead of having nothing to do with it, as Mr. Jones states.

5. "Why live producers had to lose money on all live stock marketed during the last 12 months?"

If the prices paid for live stock have resulted in losses to the live-stock producer during the past year, it is because his business has been affected in the same way that other businesses are being affected by the declining prices at the present time. Last year Swift & Co. lost 70 cents per head on its cattle operations. The reduction in cattle and beef prices came earlier than in many other lines because of the sudden cutting off of our exports of beef early in 1919. Indications point to a similar course on other commodities.

Per L. D. H. Weld, Manager,
Commercial Research Department.

Ample Credit Needed.

To the Editor of the Post-Dispatch.

The proper way to bring down the cost of living is to produce more. Supply and demand have always and will always govern prices.

In order to produce more, our farmers and manufacturers must have, not less, but more credit. To say to them: "We are going to bring down the price of your goods by cutting down your credit" is to break the legs of our Government.

Common sense seems to be the most uncommon thing in politics. There is a right way and a wrong way to do everything. In this time of stress and strain we do not need any business booms at the head of our affairs. Lord, deliver us from a policy that means wreck and ruin to our industries. Give us big men and women, with plenty of common sense, to administer our affairs.

THE DARKENING PROSPECT.

Senator Harding's remark in his first public speech after his election that the League of Nations "is now deceased" is not reassuring to the advocates of the League who supported him on the representation of Messrs. Taft, Root and Wickersham. Nor is there comfort in the testimony of newspaper correspondents with him that he leans rather to Borah and Johnson than to pro-League advisers.

The President-elect repeated his suggestions with regard to a new association, but if the existing League is scrapped, we fear there will be no association strong enough to stop a back-alley fight. It will probably die a-borning.

It is impossible to mistake the significance of the rejoicing of the French press and representatives of the British press over the repudiation of Wilson's foreign policies and his position with regard to the League. The Yorkshire Post, welcoming the decision, remarks:

We believe we interpret European as well as British opinion when we say that an American Government which stands for its own country first, and for all time will be understood and appreciated in this old world of ours, which has lost its illusions and is no longer in a mood to strain after visionary politics.

Visionary politics means an attempt on the part of the nations to restrain greed and imperialistic aggression. The lost illusions are the hopes of seeing a just peace through efficient international co-operation.

The Intransigent remarks that from a French point of view it is a success. Le Matin expresses the hope that "the discussion which will be started on relations between the United States and the League of Nations will provide occasion to repair some of the faults committed at Versailles."

We know the French view of the faults committed at Versailles. If the treaty and the covenant are revised according to the heart's desire of leading French statesmen, Germany will be stripped bare and the restraints upon France to reap the spoils of war and to expand her powers and territory will be removed.

Speaking of the bright prospect after the war of "a tranquil, swiftly convalescent world, instead of the present world's fair of spies, greeds and suspicions," the Manchester Guardian, the great liberal, progressive Journal of England, remarks:

In what proportions a want of dynamic genius in President Wilson and an irredeemable viciousness of spirit in other politicians contributed to darken that opening prospect we cannot tell yet. It is gone now. Europe is snarling, grabbing and jockeying in the old time, while all the remaining effect of Wilsonism in America is the decision of the presidential election by an overwhelming balance of public antipathy to it. The story is that of one of the most pitiful of all failures in the execution of a task nobly conceived.

The prospect is darkening, but the situation should rather stimulate than dishearten the friends of peace. Those of all parties who cherish the hope of a civilization which will make for peace against war and for a league in which the nations are pledged to put into operation and support peace processes and to check greed and aggression, must now stand together for righteousness. The combined influence of all those who have not abandoned the practical idealism of a covenant between nations to keep the peace of the world is needed now. The crisis in the battle of the forces of light and the forces of darkness is at hand.

The price of news print has already dropped to 8 cents a pound, thus proving that the capitalist press knew very well what it was doing when it put publishers at the head of both tickets.

TO CONGRESS VIA WANT-ADS.

Miss Alice M. Robertson, elected to Congress in an Oklahoma district, is the second woman in the United States to have achieved that honor. She is said to have won the contest by clever ads on the want page.

If the story of her victory is correct, she has reversed a not unusual political procedure. Her name within the last 24 hours has appeared everywhere on the first page. Many aspirants for public office start in on the first page and finish on the want page.

Of course, the Democrats suffered a slight reverse Tuesday, but look at the Prohibitionists; their entire congressional delegation was wiped out.

THE FORECASTERS.

Forecasting election results is a more or less amiable profession. It engages the services of able persons who write interestingly about what they don't know—about what can't be known. Those prophets labor faithfully. They travel far. They consult expert and inexpert opinion. They study the outcroppings of public sentiment, pore over its topography, discover its antileines, probe down beneath the surface and record the strata of the formation with geological exactitude. Then election day comes and their reports, blueprints, miscellaneous data and all the rest are demonstrated to be grotesquely inaccurate, sometimes worthless, occasionally a pretty good guess.

The best that can be said for the professional election forecaster is that he made a good guess. Were there anything really scientific in the prospecting of election sentiment the latest contest could measurably have been foretold. Here was an overwhelming state of mind. Granted that the forecasters all agreed as to the probability of Mr. Harding's election, not one of them detected the avalanche. They found doubt where there was no doubt, uncertainty in the temple of truth, an eyelash finish where the actual race was a ludicrous walkway.

But the election forecaster will probably always be

Such literature, though, is the stillborn books of politics, the outpapes, so to speak, of the game. What the great American public will do when it marches to the polls cannot be predicted—at times can't even be suspected.

THE NINTH REJECTS CHAMP CLARE.

Champ Clark had, on nine ballots, received the votes of a majority in a national Democratic convention for President. He had been four times Speaker of the National House. He was a favorite in the Ninth Missouri District, which had elected him to Congress 13 times, and he had taken occasion to dissociate himself from many of the acts and utterances of the administration. And still, so great was the force and velocity of the landslide that even Champ could not be saved. He was carried down in the mighty earth movement, and, though he was not buried quite as deeply, perhaps, as some others, he was buried deep enough.

Keeping in mind the case of Uncle Joe Cannon, who is still serving a nearby district of Illinois at the age of 84, it may seem hazardous to set limits to any congressional career. The fact remains, however, that Champ is now past 70. There have been signs that he is suffering from the disillusionment of men who, having once had the greatest of all offices almost in their grasp, are relegated to the disappointment of lesser things.

Once before he was overwhelmed in a landslide, the one that came in the off-year election during Mr. Cleveland's second term, but the special circumstances that gave him further opportunities thereafter are not likely now to be repeated. His name is not now identified so intimately with any particular great issue as to cause a resort to his leadership.

It may be that the man who has had a more conspicuous national role than any other living Missourian is approaching the end of that role, for with new times comes a demand for new men. Champ's innumerable personal qualities have been a great asset. He had a remarkable popularity both in and out of Congress.

HOW TO LIVE LONGER.

Undoubtedly we would all live longer if we had the insouciance of Goodman Alexander, 92 years old, of Seattle, Wash. When that old gentleman was awakened from his slumber the other night by a burglar with a flashlight, he mildly protested the interruption of his slumbers and turned over and went to sleep again.

It is Alexander's idea that nothing is as important as sleep and that none of it should be sacrificed even for the purpose of taking the customary cognizance of the visit of a burglar. He clinches it with this: "If I let burglars and such worry me, I wouldn't be as old as I am." Well, there's no denying that he is 92, going on 93, and you can't get away from the force of that.

With us it is different. When a burglar drops in we make an occasion of it and get so wide awake that we cannot sleep for the rest of the night. We lose valuable sleep and make it embarrassing for the burglar, who does not desire so much attention and would much rather we would go back to sleep and let him do all the worrying about the family silver, where it is kept, how to get away with it, and so on.

At the same time we think that the attention of the burglar should be called to Grandpa Alexander's sleep rules. It stands to reason that the burglar who stays awake to burglar will not live to a good old age. Now, if he could be persuaded to stay at home nights and get his 12 hours' sleep, it would be better for him, and others would get their sleep. Everybody would live longer.

ITALY'S COMMERCIAL QUARANTINE.

Italy has locked its doors against the Ford car. It is stated that a Ford car can be bought in Italy for less than a home-made motor cycle. Against such competition the Italian motor industry would be helpless. The Government has come to that industry's rescue by barring all cars of foreign make.

Other Italian industries are similarly threatened. Germany, for example, can supply Italian railways with equipment at lower prices than the home manufacturers can offer. The Czechoslovaks have placed clothing on the Italian market at figures far below the ability of Italy's textile plants to meet. German and Czechoslovakian products, it is presumed, will be excluded the same as American automobiles.

Carried to its logical conclusion the Italian policy with respect to American automobiles obviously means commercial isolation. It gives a sharper definition to our protective tariff policy. It makes that policy a quarantine, which, of course, it is in its ultimate consequences. It presages the destruction of foreign trade, the end of commercial intercourse.

Is Italy justified in such a drastic attitude of withdrawal from the world market? Clearly, Italy is quite as justified in protecting her working men against the pauper labor of the United States as the United States is justified in protecting the American workman from the pauper labor of Europe. If the tariff is a good rule it must work both ways.

The position Italy has taken is something for the coming administration to think about. In thinking about it, one of the vertiges evolved from the world war must be taken into account. That verity is that there is not going to be any pauper labor anywhere. Pauper labor has become as unfashionable and intolerable as purple Kings.

THE REBEL.

STABLY I walk, a slave
To gravity, a thrall,
When I would flash, would leap,
Would fly with speed of light,
I drag, I lag, I heave
Along a weakening weight
Of flesh, when I am flame.

When freely I would soar,
Aye, even swiftly drop
In soundless depths of space—
Drop but to rise again,
And giddily dare and dare
Heaven's height and hell's abyss,
I crawl.

Lo! I rebel! Rebel!
Ye years, that pass and lay
A heavier load on me,
My spirit heeds you not;
Henceforth at you I mock,
Myself you cannot touch.
Time is, time was, is, is naught
For him who feels and knows
That he himself is more
Than body, poor old steed,
Can wot of or can bear.

Grow grey, old peer; grow dim
Old eyes; wear out, old nerves;
But I, your sovereign lord,
Who taught you all you know,
And used you long and hard,
Thank you, poor instrument
For faithful duty—I
Shall go my deathless way,
When you can no more serve.
Eternity awaits.
There, in the infinite,
My soul released and free,
Shall soar and dare and do
For aye.

This is an excellent time for the few surviving Democrats to enjoy the solitude of Nature. She was never lovelier.

Why didn't the Democrats run Harry Hawes for President?

It would be interesting to know how many people voted the Republican ticket in the expectation that the Republican party will keep us out of the League of Nations. Judging by the comments of party leaders, from Senator Borah down to State and county committeemen, the number must have been very great. We know also that the number of those who are for the league and expect the Republicans to take us into it is very great. That leaves one wondering how those opposing elements can be reconciled to one another in the party. They could unite in opposition to Mr. Wilson and his administration, but it looks as if that were about as far as they can travel together. The Democrats are well out of it. Since they did not have the country behind them, they could have only ruined the party for a quarter of a century by persisting in the course laid out for them by Mr. Wilson. It was the only course for us to follow in all honor and wisdom, but it had become impracticable. The Irish were against it, and so were the Germans. It is no fun to go into a campaign with two such powerful elements as those against you. Only a miracle could have won for Gov. Cox, and we had a miracle as recently as four years ago. They don't repeat that often. The dominant group in the Republican party will attempt to put us into the league. You can imagine when that time comes what the state of affairs in the Republican party will be. We have arrived at a political impasse. It broke the Democrats, and it will break the Republicans. Still, we all want to try it. We shall only believe we cannot do it when we have failed, which is the proper spirit. We had our best chance to get into the league when the Republican leaders decided that getting the Democrats out of power was more important than getting everybody lined up against war. We may have as good a chance again, but read what Messrs. Borah et al. say about the significance of the election.

Sir: This appeared in your paper a few days ago:

"I always have maintained," Mrs. Glyn went on, kindly, "that it is most natural for your men to be as they are, and for your women, too. To begin with, men had to protect the women from Indiana."

Why do they all pick on the Hoosiers?

No. 1877771.

It would have been a great comfort to many Democrats in the North had the Republicans taken the Southern States while they were at it. The solid South is something to carry, and the Republicans may be thankful they don't have to carry it.

An Eye for Business.

In a certain Sunday school on a Sunday afternoon one of the teachers became somewhat faint, and was placed upon a bench while the usual restoratives were applied.

Suddenly a little girl stood up, and persistently called:

"Teacher! Teacher!"

But she was unable to attract the attention of those who were attending the unfortunate woman.

At last, however, the little one was heard, and one of the teachers, turning around, demanded hastily and somewhat irritably:

"Well, what is it?"

"Please, teacher," the tiny tot replied, "my father sells coffins!"—Answers, London.

DEMOCRACY IDEAL AND REAL.

CORNELIA JAMES CANNON in Atlantic Monthly.

WE Americans affirm that all men are free and equal, and are to be free and equal. What one man has, we want all men to have: a comfortable home, plenty to eat and wear, health, education, recreation. We have believed this was possible. Have those who knew better all along accepted inequality in their secret hearts while paying lip-service to the fetish of equality? Someone has calculated that, each of the twenty million families in the United States possessed an automobile, it would require for securing the raw material, and for the manufacture, repair, replacement and upkeep of these cars, the supplying of oil and gas for their running, and the care of roads for them to run on, the entire time of eight million men. If we find the present facilities for the preservation of health, hospitals, nurses, doctors, health officers, inefficient, what would be the situation if we had any really high standards of public health? If all our fellow citizens took care of their teeth the present supply of dentists would be a mere drop in the bucket. Our complex civilization cannot be kept up apparently for all alike. Shall its benefits be confined to one class of the population? Can we recruit our economic slaves from some of the less advanced races, or must we make some fundamental change in our standards? The luxuries of one generation can no longer axiomatically become the necessities of the next. So far, at least, we can see. But is not something much more fundamental essential? Can we as a nation renounce the habit of material possession, which is becoming an obsession with us, and do it with the conviction that it is incompatible with the practice of democracy? Or must the horrid struggle of those who have not, to get, and of those who have, to keep, go on forever?

MEXICO'S NEW PRESIDENT.

From the North American Review.

THE peaceful and orderly election of Senator Alvaro Obregon as President of Mexico—though a General he prefers to be regarded as a civilian—is the most auspicious event in that much-troubled country since the abdication of Porfirio Diaz, and should be thus regarded and treated by our own Government. We have, of course, grievances against Mexico which must be righted. But the first step must be to give the new administration in that country full and cordial recognition. All that is known of the new Mexican President is favorable, and warrants hope that he will be able to restore that country to the peace, prosperity and friendly relations which it enjoyed under Diaz, while, let us trust, giving it a more truly democratic government.

THE AMBASSADOR'S BAGGAGE.

From the Syracuse Post-Standard.

THE embassies in Washington are foreign territory, and Ambassadors in Washington or abroad the way are privileged personages. The rules of diplomatic immunity, while ancient, are not accurately defined. The Ambassador or Minister is governed by the law of his own country, and yet there is a limit to his exemption from domestic law. The Turkish Ambassador could have been in his embassy, but he could not kill while Armenians he met. The order of the Secretary of State that the Treasury Department shall leave diplomatic baggage alone is grounded in good sense. There is no reason to suspect that diplomats are engaging in bootlegging; and until they do they are entitled to that immunity which diplomatic usage prescribes.

MISS MILDRED BROOKS TO WED IN MARCH

Engagement to Thomas G. Rutledge Announced in Unique Manner at Bridge Party.

AN engagement announcement which was made today in a unique manner was that of Miss Mildred Brooks, daughter of Dr. Frederick C. Brooks, to Thomas Granville Rutledge. A small bandit in the person of Alden Hess, well-known cupid, which part was enacted by little Virginia Ellen Rainwater, and disposed her of a basket of roses containing two hearts, on which was written the names of the engaged couple. The wedding will take place in March. Mr. Rutledge is the son of Mr. and Mrs. Robert Rutledge of 5443 Page boulevard. He is at present making his home in Indianapolis.

The news was told at a bridge party with which Miss Brooks entertained at her home, 715 Limit avenue, University City. The prospective bride was educated at Washington University and is a member of the Pi Beta Phi Sorority. She was a prominent member of the Thyrus Club.

Guests at the bridge party included Mrs. Robert Rutledge, Arthur W. Probst, Mona Hess, Ridgely Meyer, Edward Sprague, Harry Payne, Gilford Morley, John Calvin Roberts Jr., Frank Henry, L. L. Horchitz, Guy Kirksey, Misses Mildred Hess, Winona Wuerstenbaeher, Margaret and Dorothy Jackson, Louise Breeding, Alice and Elizabeth Anderson, Lora Otto, Frances Henry, Helen Bradley, June Pelton, Helen Stevens and Edith Row Wilson.

HER MARRIAGE WILL TAKE PLACE CHRISTMAS

Miss Harriet Eby...

The marriage of Miss Harriet Eby, daughter of Mrs. Elizabeth Eby, 1227 Amherst place, and Dr. Lyle Brown of Chicago will take place at Christmas time. The engagement was announced last summer.

Social Items

The wedding of Miss Mildred Kalbfleisch and Chester C. Nicolai of Milwaukee will take place at 8 o'clock tomorrow evening at the

home of the bride's parents, Mr. and Mrs. Gustav A. Kalbfleisch, 3822 Lafayette avenue. The Rev. Dr. William Wilk of the Church of the Messiah will officiate in the presence of relatives and intimate friends. Miss Gertrude Hemmelmann will be the maid of honor and the bridesmaids will include Misses Helen Crawford and Anna Sheppard. Mr. Nicolai will be attended by John Melners of Milwaukee as best man, and the groomsmen will be Herbert Kalbfleisch and Albert Bucane of Milwaukee. The bride's gown will be of ivory bridal satin with an overdress of silk net edged with satin. Her tulle veil, which will fall from a coronet of real lace and orange blossoms, will form the train and will be weighted at the ends with clusters of orange blossoms. She will carry a shower bouquet of premiere roses and valley lilies.

The ceremony will be followed by a large reception. About 50 out-of-town guests, including the parents of the bridegroom, Mr. and Mrs. J. L. Nicolai of Milwaukee, will attend the ceremony. The couple will spend their honeymoon in the East and will reside in Milwaukee.

The marriage of Miss Harriet Eby, daughter of Mrs. Elizabeth Eby, 1227 Amherst place, and Dr. Lyle Brown of Chicago will take place at Christmas time. The engagement was announced last summer.

Miss Rosalind Thomas and Oliver Keller of Lancaster, Pa., will be married at 8 o'clock this evening at the home of the bride's father, Edmund A. Thomas, 4434 Westminster place, in the presence of the immediate members of the families and close friends. The ceremony will be performed by the Very Rev. Carroll M. Davis, dean of Christ Church Cathedral, and will be followed by a small reception. The bride will have as her maid of honor her sister, Miss Beatrice Thomas, and as bridesmaids Misses Elizabeth Howin of Wellesley, Mass.; Eleanor Higgins of Chicago and Mary Keller, a sister of the bridegroom. Mr. Keller will be attended by Robert Miller of Lancaster as best man, and the groom-

men will be Estey Foster of Plainfield, N. J.; John Shapleigh, Berthoud Clifford, Hilgard Tittmann and Lawrence Ayres. Mr. Keller and his bride will spend their honeymoon in Canada and will make their home in Lancaster.

Mrs. Charles A. Logeman of Normandy and her daughters, Misses Mildred and Gladys Logeman, will receive tomorrow afternoon from 3 to 5 o'clock in honor of Miss May Cornwall, whose marriage to William Langton Jr. of Montreal will take place early next month. About 200 cards have been sent out.

Miss Margaret Teasdale, daughter of Mr. and Mrs. George Willard Teasdale of 4310 Delmar boulevard, was presented to society at a tea this afternoon with which her mother entertained from 4 to 6 o'clock. Receiving with Mrs. Teasdale and her daughter was their guest, Miss Caryl Binney of Milwaukee.

Mrs. J. A. Berninghaus of 8342 Pershing avenue was hostess at a tea at her home this afternoon for about 300 guests in honor of Miss Mabel Wendover. Among those who served were Mrs. F. H. Riesmeyer, Misses Mabel Knox, Martha Grant, Susie May Woods, Caroline Matthews and Marie Clarkson.

Lock and Chain of Washington University will give its second dance of the season in the gymnasium on the campus tomorrow evening. The affair was scheduled for this evening, but postponed because of the mass meeting of students to organize support of the football team in its contest with Drake tomorrow afternoon. It is planned to limit attendance at these dances to university students, outsiders being required to have written invitations.

Many reservations have been made for the dinner dance at the St. Louis Country Club tomorrow evening which will be Japanese affair.

The first of Minuet Club dances which was to have been given this evening probably will take place Nov. 15 at the St. Louis Country Club. Among the patronesses at these affairs are Meses Albert Bond Lambert, Edward V. Papin, Albert Terry and Martin Lammert.

RAIL RATE HEARING DENIED

Kansas Court's Petitions Refused by Interstate Commission.

WASHINGTON, Nov. 5.—The petition of the Kansas Court of Industrial Relations for a hearing on the advanced interstate rates granted railroads in western territory was denied today by the Interstate Commerce Commission. The court contended that the roads in western territory would earn approximately \$192,000,000 in excess of 6 per cent on the value of the railway properties in that territory under the new rates.

The commission's announcement gave no reasons for denying the petition.

TROOPS LEAVE WEST VIRGINIA

By the Associated Press.

WILLIAMSON, W. Va., Nov. 5.—The battalion of Federal soldiers who have been on duty in the Mingo County coal fields since the strike of miners was called almost three months ago has been withdrawn.

Twenty-five troopers of the West Virginia constabulary arrived here this morning to take the places of the soldiers. An additional detachment is expected within a few days.

\$113,728 IN MECHANIC LIENS RECOMMENDED

Referee Files Report on Claims Against Old Southern Hotel Property.

Fifteen mechanic lien judgments totaling \$113,728.34 against the Southern Hotel property at Broadway and Walnut street were recommended by Referee Marion C. Early in a report yesterday in Circuit Judge Grimm's court. There were 15 claims in the original litigation and they were presented to the Circuit Court by the Allen Estate Association, which owned the property, asking an adjudication of them. The referee rejects one claim because of insufficient evidence and another because the claimant is a foreign corporation having no license to do business in Missouri.

Suit Grew Out of Lease.
The suit grew out of a lease entered into seven years ago between the Allen Estate and the Ottawa Realty Co., by which the latter leased the Southern Hotel for 99 years. The lease provided that the Ottawa Company make extensive alterations and repairs with a view to modernizing the building for hotel and commercial purposes. This was to be at an expense of not less than \$75,000. The lease stipulated that the lessee should give a bond to the lessor for proper performance of the work and against mechanic liens.

Fred Boske & Son, general contractors, entered upon the performance of the work and thereafter sublet various parts of it to other contractors. The work progressed with a number of alterations and changes made by consent of lessor and lessee. The whole work was completed or nearly so when the Ottawa Co. of Boske & Son failed to pay the sub-contractors, and lessor soon thereafter declared a forfeiture and took possession of the property. Early was appointed referee to try the issues. The total amount in all the cases was approximately \$160,000. The hearing of the evidence extended over a period of several weeks and the written testimony covers about 2,500 pages, exclusive of several large books of exhibits.

Ruling by the Referee.
The referee rules that inasmuch as the lessor obliges the lessee under the terms of the lease to have the improvements made according to plans approved by lessor, the contractors and material men are entitled to a mechanic's lien for the value of such improvements, notwithstanding the written term of the lease.

Recently the Southern Hotel, which has been vacant for several years, was sold by the Allen Estate to John F. Queeny. The sale was subject to the liens.

Deportation Cases Dismissed.
By the Associated Press.
DOUGLAS, Ariz., Nov. 5.—Judge Samuel L. Patten, at Tombstone, Ariz., has dismissed the cases against all of the remaining defendants held in connection with the Bisbee deportation of alleged "agitators" among the copper miners. The action was taken on motion of County Attorney R. N. French.

LEGISLATURE TO BE ASKED TO INCREASE VOTING PLACES HERE

Change to Be Proposed Before Election in 1922, but Not Before Spring.

Election Commissioners Arnold, Democrat, and Dempsey, Republican, today said there would be no addition to the number of voting precincts for the majority election next spring, but that the board would ask the incoming Legislature to authorize an increase before the State and congressional election of 1922. Under the law the present number of St. Louis precincts is fixed at 600 for four years unless the Legislature authorizes an increase. The present number was based on one precinct for 200 voters, based on the vote in 1914 and there was no way of making provision for the increase caused by women voting.

The commissioners said the present number of polling places probably would be adequate for the spring election, as only Mayor, Comptroller and 14 Aldermen are to be voted on. The vote at the majority election usually is about 50,000 less than at the presidential election.

BRONZE TABLET WILL BE LAID TO MARK STREET COMPLETION

A bronze tablet, marking the completion of the reconstruction of Washington avenue from Jefferson avenue to Grand avenue, will be laid at Grand and Washington avenues tomorrow at 1 p. m. by the Washington Avenue Property Owners' Association. It will be laid in concrete and placed in the wood blocks in the center of the street, at the cut-off near Grand avenue. On it will be inscribed, with the date, the association's name and the cost of improving the street.

The opening will be preceded by an automobile parade, which will start at the City Hall at 12:45 p. m. The route will be north of Twelfth street to Chestnut, east to Fourth, north to Washington and west to Grand. The speakers will be Mayor Kiel, Harry B. Hawes, E. R. Kinsey, T. G. Watts Jr. and several others.

Coats in the Misses' Style Shop

Close association with the leading style creators, together with our tremendous purchasing and distributing power, has placed this store foremost in St. Louis for fashionable apparel in widest variety. It is this encompassing variety of high quality garments in the newest styles that enables misses and small women to express their individuality by the clothes they wear.

Misses' Coats

at \$49.75

These Coats are splendid values at this price and in the group you will find the season's styles developed of silvertone, duvet de laine, goldtone and chameleon cord. All beautifully lined and many with fur and embroidery trimming.

Misses' Suits

at \$56.00

Special values are the particular attraction here, although the smartness of the styles deserve their share of attention. Included are tailored and fur-trimmed models, fashioned of silvertone, velour, velour de laine, vel-dyne and vel de cygne.

Other Misses' Suits, in the newest and most fashionable youthful styles, \$25 to \$29.50.

Coats \$115 to \$295

Luxurious models fashioned of such elegant materials as duvetyne, Bolivia, evora, chamoistyne, orlanda and marvella, many being richly trimmed with fur.

Misses' Coats \$59.75 to \$100

The high character of these Coats will appeal to those who are as particular about the quality of their garments as the style. Rich materials in beautiful colorings are included, many handsomely trimmed with fur.

Continuing the Sale of Dresses

Which Offers \$39.75 to \$65 Values for

\$25

The beauty of the styles and the variety in which they are shown will appeal to all who are seeking an attractive though inexpensively priced Dress. They are made of mignonette, tricolette, satin, Georgette, crepe de chine, serge and tricotine in the favored shades. Sizes for misses and women.

Misses' Frocks \$49.75 to \$69.75

A collection of smart models so large that details are impractical. Generally speaking, there are tailored styles, charming afternoon Frocks of softest silks, velvet and duvetyne, as well as dinner and evening gowns, in handsome styles and colorings.

Other Frocks, including afternoon, dinner or evening styles, priced from \$15 to \$19.50.

GIRL DECAPITATED BY TRAIN IN EAST ST. LOUIS

Body Found After She Had Wan-
dered From Home—Had Been
Subject to Melancholia.

Miss Mary Nolan, 25 years old,
daughter of Mr. and Mrs. M. B. No-
lan, of 561 North Twenty-fourth
street, East St. Louis, who was sub-
ject to melancholia, wandered away
from home at 2:30 p. m. yesterday.
Three hours later she was decapitated
by a switch engine drawing a
string of freight cars on the Termi-
nal tracks at Twenty-first street and
St. Louis avenue. The body lay
away from the track and was not
otherwise mutilated.

The engineer did not see her and
the crew was unaware of what had
happened until notified by William
Calvath, of Belleville, who was rid-
ing in the caboose and saw the body.
The crew notified the police and the
body was taken to an undertaker's.
Members of the family searched
for her until 7 o'clock, when her
father went to police headquarters.
He was taken to the undertaker's
and identified the body.

The young woman, who was at one
time in an institution, had wandered
away from home before, but had not
threatened to kill herself. Members
of her family believe that it was an
accident.

BOY SERIOUSLY INJURED BY AUTO THAT FAILS TO STOP

Telegraph Messenger Knocked From
Bicycle by Truck, and Driver
Leaves No Name.

Arthur Oliver, 14 years old, of
1008A South Sixth street, was in-
jured seriously at 9 o'clock last night
by an automobile occupied by a
man who failed to stop after he had
knocked the boy down in front of
1212 South Broadway. The car was
described as a 2-passenger Essex
automobile with the rear license
plate covered with mud. At the city
hospital physicians said the boy had
suffered a compound fracture of the
left leg, fractured arm, internal in-
juries and cuts and bruises.

Ira Bevan, 14, of 1054 Suburban
right-of-way, a Western Union mes-
senger, was knocked from his bicycle
by a Ford truck at Grand and Fin-
ney avenues, suffering scalp wounds,
cuts and bruises. The driver stopped
and assisted the boy after the ac-
cident, but later drove away without
leaving his name or address.

Joseph Matavovsky, 35, of 3911
Marine avenue, was seriously injured
when thrown from his motor cycle
in collision with a parked automobile
belonging to Fred M. Schwamle, 4426
Elwood street, in front of 3716 Sa-
lena street.

Mrs. Mary Driemeyer, 24 North
Main street, East St. Louis, was cut
on the hands and arms when thrown
against the windshield of her auto-
mobile when it was pushed against
another automobile by a Hodiament
car in front of 320 Locust street.

GIRL FRIGHTENS AWAY 3 MEN WHO THREATEN TO 'KICK DOOR IN'

Intruders, Demanding to See Her
Father, Flee When She 'Calls'
to Parent to Get Gun.

When Miss Mary Michael, 18, of
8503 Minnesota avenue, answered a
knock at the front door of her home
while she and her mother and a
younger sister were home at 8
o'clock last night, she saw one man
outside the door and two men across
the street. She called to the man
without opening the door and de-
manded his business. The man re-
plied he wanted to see her father.

When she refused to open the door
the man threatened to "kick it in."
The girl, with presence of mind,
called back into the house: "Papa,
O papa, get your gun. There's a
burglar outside."

The man fled, was joined by the
two across the street and all ran
away. Mrs. Michael in the mean-
time had obtained her husband's re-
volver and handed it to Mary, who
ran out into the street and was
picked up by an automobilist who
was passing. As she related the in-
cidents the autoist took the revolver
and fired several shots in the air,
which attracted the police. The trio
had escaped by the time the police
arrived.

NEGROES LEAVE FLORIDA TOWN

By the Associated Press.
ORLANDO, Fla., Nov. 5.—Reports
from Ocoee, near here, where an
election day race riot caused the
death of two white men and a num-
ber of negroes, indicate that quiet
prevails and that practically all ne-
groes had left the region, nearly all
of them afoot, as there was no ex-
cuse by rail. The white citizens have
begun harvesting the citrus crop ow-
ing to the lack of negro labor.

It developed that Estelle Perry,
widow of the negro who was lynched
and whose demand that he be per-
mitted to vote was said to have pre-
cipitated the riot, and her daughter
to have been wounded during the fighting
to avoid further disturbance.

**The touch of Comfort
that remains all day**

THE comfort of warm, snugfitting under-
wear first thing in the morning! Men who
choose their clothing with the greatest care
know that clothes-comfort is impossible unless they
have the right undergarments. That is why most
of them buy Carter's Knit Underwear.

Special elastic reinforcements at the shoulder,
a roomy seat that keeps its shape, cuffs at wrist
and ankle that retain their elasticity, no clumsy
overlapping at the waist, a soft knit fabric that
yields to every movement of the body—Carter's
one-piece suit fits snugly and comfortably
everywhere.

The quality of the material and the expert
workmanship which go into Carter's make the
first cost a little more than that of ordinary under-
wear. The comfort and long wear more than make
up for this difference.

Try Carter's Knit Underwear this winter. Enjoy
the underwear that means the first and biggest step
towards clothes-comfort. The leading stores in
every city sell Carter's.

WHISKEY FOR
COLDS AND FLU

New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspirinal, the "two-minute" cold and cough reliever, authoritatively guaranteed by the laboratories, tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal, and tell him to serve you two teaspoonsful with four teaspoonsful of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you don't feel your cold fading away like a dream within the time limit. Don't be bashful, for the druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspirinal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.

The Owners of Union Electric Preferred Stock Won't Worry About the Income of Their Shares.

Seven dollars a year cash income from each \$100 invested — income that you can count on in good years and bad years alike — makes a very desirable investment at any time. It is especially desirable in times like the present, when the business world has to make wholesale readjustments and scaling down of prices and values.

The owners of Union Electric 7% preferred stock won't have to worry about the income from their shares during the period of readjustment. That income, under good management and strict State regulation, is protected by an earning margin more than ample to assure its regular payment during good years and bad years alike.

You can buy shares of this preferred stock at \$100 a share for cash, \$102 on a ten-monthly-payment plan, at Room 201 Union Electric Bldg., 12th and Locust streets, St. Louis, or at Union Electric's offices in Franklin, Jefferson, Perry, St. Louis and St. Charles counties.

We recommend it especially to small investors who want a 7 per cent income from their savings, with safety for their principal. Over 4000 St. Louis district men and women own shares of this stock — Missouri's safest 7% dividend payer — and the number is steadily increasing.

AMERICAN FILMS WANING IN BRITAIN

Producers Have Dumped "Junk" Until Overseas Audiences Have Grown Tired of It.

Correspondence of the Post-Dispatch.

LONDON.—American films for the last five years have had a monopoly in England which it has not been possible to challenge. But there are signs now that the tide may soon turn, and one of the principal causes of the reaction can be traced to what has been called lack of foresight on the part of American producers.

Heretofore any sort of American film could be certain of widespread screening in the British Isles. Now an agitation has been started which aims to scrap those films in favor of British-made films. It might be argued that this agitation has patriotic significance, and that the inferiority of certain American films is being emphasized in the hope of promoting a rapidly growing British industry. On the other hand, it is certain that a nondescript lot of "junk" has been imported along with first-class American productions under the "block" system of buying films.

Criticism by Stars. Many Americans, including some stars of filmdom in America, have been outspoken in criticism of certain classes of American films they have seen in England. They assert that a New York audience would not tolerate some of the old stuff which found its way to England. The stars have admitted on several occasions that films in which they were winning their spurs some years ago have been recently put on the screen in English movies.

Enough good films from across the Atlantic have crept into Great Britain to keep up the appreciation of the average British movie audience and that is one reason why people are becoming impatient of some of the crude screen dramas still sandwiched into otherwise good programs.

Far-sighted American film experts have urged their home producing concerns to use more discretion in reaching out for foreign markets. In other words, it is a "bit thick," as the average cinemagoer here would say, to have to pay to see films of a super-patriotic variety which were placed on the market in America at a time when they were intended to appeal to the warlike spirit of the American people. There is no demand by the ordinary Briton to see anything that savors of the world war. More especially there is no desire to see American heroes marching toward Berlin. To ask the British public to enthuse over them would be like asking them once more to fall under the spell of such an old tune as "After the Ball Was Over."

There is every indication that the movie fan here will continue to be as devoted an admirer of the silent drama as his counterpart of the spoken one, who is willing to stand in line in the rain for hours to see a play. Just how attached a public can be to some particular production is shown in the case of "Chu Chin Chow," now bustling on toward its five-year record of continuous showing.

POLICEMAN HEARS CRIES AND RESCUES MAN FROM ROBBERS

One of Three Fleeing Men Stops When He Hears a Cry—\$3.70 Found on Ground.

Policeman Tisdale, a passenger on a street car, heard cries for help at 9:30 o'clock last night as the car was passing Seventh street and Chouteau avenue. He jumped off and found William Zarnisky of 1414 Cass avenue lying on the ground, and three men running away. Tisdale fired several shots, and one of the men stopped.

Zarnisky identified the man as one of three robbers who a moment before had knocked him down and taken \$3.70. That amount was found on the ground where the prisoner was halted. He gave his name as Charles McNamara, 28 years old, of 1329 South Seventh street, but denied he had participated in any holdup.

Mexico Opens Trade Agency.

BUENOS AIRES.—With the arrival of the new Mexican Minister to Argentina, Jesus Urquiza, announcement has been made to the newspapers of the establishing of a commercial agency of the Mexican Government in Buenos Aires to acquaint Argentine importers with Mexican products and to stimulate trade between the two countries. Although welcoming this enterprise, the Reason point out that neither Argentina nor Mexico has a merchant marine and that an interchange in trade between the two countries will have to depend on British or American ships.

The dotted lines—

The dotted lines show a development which is a source of annoyance to many women whose figures are otherwise slender and fashionable.

This type of figure requires special corseting to adjust the faulty lines and distribute the fullness which has settled at the thigh. A Redfern Corset has been designed to do just this.

Redfern Corsets are for individual types of figure, and no matter what your type of figure, there is a Redfern which will subdue its faults and bring out its best lines.

17 "BLACK AND TANS" REPORTED AMBUSHED

Said to Have Been Killed by Machine Guns in County West Meath.

By the Associated Press.
LONDON, Nov. 5.—The Evening Standard's correspondent at Mullingar, County West Meath, Ireland, says it is reported, although not confirmed, that 17 "black and tans" have been killed from ambush by machine guns.

Lieutenant Slain When Motor Cycling in Ireland.

By the Associated Press.
ENAGH, County Tipperary, Ireland, Nov. 5.—Lieut. Hamilton was shot dead while motor cycling near here last evening. Two men who were arrested on suspicion of having killed him attempted to escape and were shot dead.

Reprisal followed the officer's death. Licensed premises and a printing office were destroyed by fire and a creamery was blown up with bombs and the machinery smashed. The inhabitants of Enagh fled into the surrounding country. The noise of firing and explosions were heard throughout the night.

Raiders Defeated in Attack on Irish Village; 3 Soldiers Slain.

By the Associated Press.
DUBLIN, Nov. 5.—A raiding party of uniformed men and nine lorries met disastrous defeat in an attack early yesterday on the village of Ballinacree, which is adjacent to the small town of Granard, about 64 miles from Dublin. After the sacking of Granard Wednesday night the residents of Ballinacree gathered in defense of their homes against an attack which they felt certain would come.

At 2 o'clock in the morning the lorries arrived. A 15-minute fight ensued, in which three soldiers were killed and at least six wounded, according to estimates of local correspondents. The attacking forces then retreated.

BOSTON SOCIETY WOMEN DRESS IMMODESTLY, DR. ELIOT SAYS

They Are Worse in This Respect Than Women of Lower Station in Life, He Declares.

Special to the Post-Dispatch.
BOSTON, Mass., Nov. 5.—Dr. Charles W. Eliot, president emeritus of Harvard, yesterday severely censured Boston society women for immodesty of dress and manner, and declared they were worse in these respects than women of lower station. Speaking before the Unitarian Women of Boston in the parish rooms of the Arlington Street Unitarian Church, he said women were themselves to blame for the prevalence of loose morals.

"I may be held old-fashioned for my views," said Dr. Eliot. "But when I was young no young man would think of smoking while with a woman. We can see the way women dress on any Boston street. Our mothers would call it an indecent way. These young women don't want to be indecent. They merely want to be fashionable and pretty. But the clothes are immodest. And they have a psychological effect. They tend toward immodesty in manner."

"It has been my observation that the average woman has a higher sense of propriety in some of these matters than women of society. Moral tenets and the dictates of propriety, I believe, considered, rather than binding among middle-class people than in the more raffish atmosphere of the higher social circles."

"JAILED JAILER" ELECTED JUDGE

Kentucky Democrat Defeats Official Who Had Sentenced Him.

Special to the Post-Dispatch.
LEXINGTON, Ky., Nov. 5.—One of the anomalies of Tuesday's election in Kentucky was the victory of "Jesse Whitaker, 'jailed Jailer'" of Letcher County, who won his race for the office of County Judge, defeating his Republican opponent, Judge Stephens Collins, by a majority of 500.

The jailer made his race from his "front cell" in the Whitesburg Jail, to which he was committed several months ago by Judge Collins to serve a six-months' sentence for alleged disorderly conduct and carrying a concealed weapon. He appealed from the decision of the lower court, but the judgment was affirmed. It was then that Jailer Whitaker, who was a prisoner, in his own jail decided to "get even" with Judge Collins and "vindicate" himself, as he expressed it, by running for the office of County Judge. From his cell in the jail he began planning his campaign, and through Democratic friends who rallied to his standard he soon had an aggressive organization, which "put him over" in Tuesday's election.

SUPPLIES ON WAY TO RUSSIA

First Shipment for Jewish War Sufferers by Americans.

By the Associated Press.
NEW YORK, Nov. 5.—The first large shipment of American relief supplies for the Jews of Soviet Russia has been started from the Baltic port of Revel, Esthonia, for Moscow, under a convey furnished by the Russian Government. In announcing this the Joint Distribution Committee of American Funds for Jewish War Sufferers said the supplies, costing \$500,000, comprised food, clothing and surgical and medical supplies. Dr. Frank Rosenblatt of New York, now in Russia, will co-operate in distributing them with the Moscow committee of Jews. The State Department, the announcement said, offered no objections to the arrangements for giving succor to "famished and naked Russian Jews."

PIECE OF SILK CLEW IN NEW YORK HOTEL CRIME

Part of Underwear Left by Waters' Slayer—Victim Had Lost at Gambling.

NEW YORK, Nov. 4.—A piece of silk underwear, discovered near the body of Leeds Vaughn Waters, 49 years old, wealthy son of the late Horace Waters, piano manufacturer, who was found murdered in a hotel room here Wednesday, is the only clew the police have with which to solve the murder mystery. The underwear bore the initials of "W. H. A." and detectives have traced it to a laundry in Fifty-fifth street, where it was recently cleaned.

Search is being made for the man who accompanied Waters to the hotel room, and who fled just before the body was discovered. It is believed this man is the murderer and the owner of the underwear.

Shortly before a hotel detective went to investigate a reported quarrel in the room Waters and his companion were occupying. The man who had registered with Waters as "James Dunn," left the room and went down in an elevator, wearing one shoe and carrying the other. This shoe is believed by the police to be the instrument with which Waters was beaten to death. The man left the hotel after putting on the shoe.

Inspector Coughlin learned that Waters had suffered heavy gambling losses recently. In his room at the Gramatan Hotel in Bronxville, where he lived with his mother, the police found pawn tickets showing that Waters had pawned jewelry during the last six months and obtained \$1400.

CASHIER ENDS LIFE; NOTE TELLS OF GRIEF OVER MOTHER'S DEATH

Letter Also Admits Shortage of \$100 in Accounts and Slip for Amount Is Found in Cash Drawer.

Charles F. Castle, 25 years old, cashier at the office of the Campbell Glass & Paint Co., Main and Gratiot streets, shot and killed himself in his room at 2853 Lafayette avenue, at 12:30 o'clock this morning, leaving a note which indicated despondency over the death of his mother a year and a half ago and admitting that he was \$100 short in his accounts.

At the Campbell Glass & Paint Co. it was said today that a slip was found in Castle's cash drawer showing that he had taken \$100 from the petty cash account, which sum was to be charged against his salary of about \$150 a month. It was said the slip must have been left since Monday, the first of the month.

Other roomers at the Lafayette avenue address heard a shot fired in Castle's room and rushed in, finding Castle lying dead in his bed with a pistol beside him. He was shot through the breast.

J. J. Rusie, assistant auditor of the Campbell company, told a Post-Dispatch reporter of the finding of the debit slip in Castle's drawer. "Castle had been with us two years," Rusie said, "and there was a continuous check on his accounts. We do not consider him to have been short, although this is the first time I know of his having made such a debit. He should have had authority to do so. We think the sole cause for Castle killing himself was despondency over his mother's death."

UNIONISTS WIN IN PORTO RICO

Socialists Appear to Be Next Strongest Party in Island.

By the Associated Press.

SAN JUAN, Porto Rico, Nov. 5.—With the official returns of Tuesday's election still incomplete, the Unionists, who favor autonomy for Porto Rico, appear to have won six out of seven legislative districts and to have captured the city of San Juan, for the first time in 20 years, from the Republicans, who favor the island's statehood. The Socialists showed some promise, probably becoming the second strongest party in the island.

The elections were the most orderly ever held and show the largest vote in the island's history. Martin Travieso, former acting Governor, who headed the San Juan city ticket, was elected.

WINS BRIDE ON THE ELECTION

When Harding won the presidential race Tuesday, Charles McCaw of Lebanon won a bride. He was married yesterday in Belleville to Miss Louise Peters of Summerfield. Two months ago McCaw asked Miss Peters to become his bride. She was a Democrat and he a Republican. She agreed that he was a Republican and she would become Mrs. McCaw. Harding won and so did McCaw.

A Noticeably Busy Place Is Local Furniture House on Fourth St.

Many people eager to take advantage of the \$100 rebate being offered now on suites of Living Room, Dining Room and Bedroom Furniture, are keeping the salesmen and office force rushed at the Prufrock-Lutton Furniture Company at Fourth and St. Charles streets.

Noticeable inroads have been made in their stock of these special suites of furniture on which this \$100 reduction applies. As the supply of them is limited, this offer must be withdrawn in a short time, and young people, furnishing the new home, are wisely saving \$100 each on the suites of furniture they purchase.

Tax Problems That the New Administration Must Face

Of vital concern to every one of us, because indissolubly linked with the high cost of living, is the problem of tax revision that confronts the new Administration at Washington. "There is no question that Federal taxation is a burning issue the country over," declares the Philadelphia Public Ledger (Ind. Rep.), which adds that "if the country is to be saved from the inequalities of the present taxation, which is both sectional and too arbitrary in its class distinctions, it must be through the combined common sense of both parties, and not through any doctrinaire adherence to partisan systems."

During the fiscal year 1920 Federal taxes amounted to \$5,408,075,468, an increase of a billion and a half over 1919. And since the cost of running the Government next year will be at least \$4,000,000,000, according to estimates of Secretary of the Treasury Houston, the problem for the present is to devise a better, not a smaller, tax.

The leading article in THE LITERARY DIGEST this week, November 6th, presents the many suggestions offered to meet this acute situation, including the list of the articles upon which new taxation is contemplated. It also shows the criticisms for and against the various measures proposed.

17 "BLACK AND WHITE" HIT
REPORTED CONERATED
Have B... Will Use Man... Insurance of... for Officer.

Patrolman Peter Manion of the Mounted Police District was acquitted yesterday by the Board of Police Commissioners of a charge of assault upon Louis Lange, 5313 Blach-off avenue, whom he ejected from the Roe School, 6822 Mitchell avenue, on Oct. 18. The boy had defied his teacher and fought with Manion, who subdued him, using what at the time was described as a "billy."

Manion is 37 years old and weighs 140 pounds. The boy is 16 years old, strong, and one-half inch taller than the policeman and weighs 121 pounds.

The board's verdict was as follows: "Officer, the charge is dismissed without prejudice to you in any way and if you should again be called into any school to get a boy who is in any way unruly, you understand it is your duty to take him out."

Says Boy Struck First.
Mrs. H. H. Hays, the teacher of the room in which Lange was a pupil, testified that the boy had ignored her instruction to read aloud. She sent for the school principal, she said, and then, in his absence, for the janitor. The janitor in turn called Patrolman Manion, whose beat includes the school. Mrs. Hays declared that she thought that the boy struck Manion first. Pupils, however, testified that Manion struck the boy, whereupon the boy attacked him.

Manion exhibited a cut over his left ear and testified that "If I had not used force I would have been beaten."

Lange testified that he hit the policeman after Manion had struck him. He declared that Manion hit him on the head three times and on the back once, causing him to lose consciousness. He described the "billy" used by Manion as a piece of rubber 14 inches long. Others declared that the rubber was light and could not have caused serious injury.

A physician testified that an X-ray revealed that Lange had suffered a slight fracture of the skull of a character that heals readily.

"Yellow" If He Had Failed.
Chief of Police O'Brien described Manion as a good officer. "If he had not come out of that school with the boy, I would have thought he was yellow," he said.

Capt. Hanna, who has command of the Mounted District, said that if Manion had not taken the boy out he probably would have faced a charge of cowardice.

Charles P. Peretti Jr., attorney for Lange, was not given opportunity to question the witnesses. He said that he had applied to the Circuit Attorney's office for a warrant charging Manion with assault with intent to do great bodily harm, and, failing to get a warrant, would bring mandamus proceedings to compel issuance.

"WE ARE FIGHTING HARD, IN HOPE," SAYS GEN. WRANGEL
Anti-Bolshevik Leader Driven Back Into the Crimean Peninsula Breaks Silence of Four Days.

By the Associated Press.
CONSTANTINOPLE, Nov. 5.—Gen. Baron Wrangel, whose forces have been driven back into the Crimean Peninsula from Russia proper by Bolshevik armies, has broken a silence of four days with a characteristically laconic message to Baroness Wrangel, his telegram said: "We are fighting hard, in full hope." The Baroness, who has spent many sleepless nights since the Bolshevik offensive began, said: "I want is the truth; no matter how bad it is, I can stand it."

SEBASTOPOL, Nov. 5.—Gen. Baron Wrangel, head of the anti-Bolshevik Government of South Russia, has successfully withdrawn his troops to Crimea before the advance of Soviet armies south of the Dnieper River. He is master of Perekop and also Salkova.

At Salkova, Gen. Wrangel has captured thousands of men belonging to the units of Gen. Budenny's cavalry. The spirit of his troops is good, but they are worn out by their long flight, which has lasted for five months, and are glad to be assured of a rest in Crimea.

Soviet forces are besieging the anti-Bolshevik trench system on the narrow neck of land leading from the Crimean Peninsula to the mainland, but it is asserted only 10,000 of Gen. Wrangel's troops will be required to hold Perekop and Salkova.

Change Makes "Bathhouse John" and "Hinky Dink" Rivals.

By the Associated Press.
CHICAGO, Nov. 5.—Decision of Chicago's voters to have one Alderman in each of 50 wards instead of two Aldermen in each of 35 wards, today brought to light the interesting case of "Bathhouse John" Coughlin and "Hinky Dink" Kenna, who have bossed the First Ward for more years than many voters can remember. Speculation was rife in political circles as to who would drop out in the next election. They are fast friends.

Allied Soldiers' Conference.

The United States, through the American Legion in France, Great Britain, Belgium, Italy and Czechoslovakia, will be represented. Invitations have been sent to organiza-

tions in Greece, Japan, Portugal and Yugo-Slavia will have representatives in attendance.

FRENCH DEMAND BRITAIN EXPLAIN TREATY CHANGES

Amendment of Reparational
Clause Is Without Author-
ity, Paris Tells the Ambas-
sador in London.

PARIS.—Points of friction be-
tween France and Great Britain
seem to multiply almost hourly. The
French Ambassador in London, has
been instructed to ask the British
Government how it reconciles its in-
dependent action in striking out pa-
graph 18 of the reparational an-
nex of the Versailles treaty, so far as
British interests are concerned, with
the understanding after the French
occupation of Frankfurt. Such un-
derstanding has been deemed by the
French as unequivocally binding that
no ally should act alone in affairs
in which Germany was concerned.

Officials here voice their surprise
at Premier Lloyd George's denial of
any obligation on the part of Great
Britain to defend Belgium, such de-
nial having reached Paris from Bel-
gium after the return of the Bel-
gian Premier to Brussels from Lon-
don.

Bar Germany From League.
Officials of the Quai d'Orsay are
hard at work organizing a campaign
of opposition to the admission of
Germany to the League of Nations—
a step which, judging by Mr. Bal-
four's speech at a meeting of the
Council of the League, will be urged
by British delegates to the General
Assembly in Geneva.

As a sort of comedy relief, the
shapers of the French foreign pol-
icy have addressed a protest to the
secretariat of the league against the
too frequent use of the English in the
communications from that body to
the French Government. It is ad-
mitted that the league is bilingual,
its official tongues being French and
English, but it is contended that in
communications to the Quai d'Orsay
French is the more fitting language
to use.

In regard to the plan for inter-
national unity of action toward Ger-
many the British apparently consid-
er the exchange of notes following
the Frankfurt incident as having es-
tablished a principle not applicable
to the present case.

Downing street's viewpoint, as un-
derstood here is that any signa-
ture to the treaty has the right to re-
nounce on its own behalf the privi-
leges conferred upon it by that in-
strument. The French argue, on the
other hand, that such renunciation
carried to a logical conclusion ren-
ders impossible the execution of the
Versailles terms.

The Paris press generally regards
Mr. Chamberlain's speech of yester-
day as reflecting a selfish and pur-
sely commercial outlook upon a prob-
lem that to France is primarily po-
litical. Commenting on the Chan-
cellor of the Exchequer's remarks,
Le Temps says tonight:

"If the right of individual renun-
ciation claimed by Mr. Chamberlain
exists for one it must exist for all
the articles of the treaty, and the
signatories would thereby be no longer
bound to one another."

Assaults Lloyd George.
Le Gaulois characterizes the Brit-
ish Premier's declaration in regard
to defensive aid to Belgium as "stu-
pefying" and observes that it can
only serve to increase the emotion
produced in France by the liberality
of his attitude toward the En-
tente.

A considerable body of public
opinion represented by such news-
papers as the democratic Nouvelle,
Echo de Paris and Gaulois demands
the inauguration by France of a
"vote everybody for himself policy,"
to be initiated by the occupation of
the Ruhr Valley. Pertinax writes
of Balfour's "detestable discourse in
welcoming Germany into the Wil-
sonian League" and urges the
French Government to concentrate
its attention upon the penalties
which it may single-handed impose
in the event of German nonfulfill-
ment of treaty obligations.

Le Journal and La Libre Parole
alone advocate candid explanations
between London and Paris, with the
view of bringing into daylight the
fundamental obstacles in the path
of agreement and finding a way to
circumvent them.

FRIDAY EVE
HERO MEDALS
NO LOSS

17 "BLACK ANEDALS" REPORTED LIVES

To Have B. and Seven
ine Gitions Made
in Mission.

PITTSBURGH, Pa., Nov. 4.—Ten per-
sons, some of them, move boys and
thirty, were recognized by the Carnegie
Hero Fund Commission at its regular
fall meeting here.

Thirty-three medals were awarded
by the commission, which, in addi-
tion to minor financial appropri-
ations, recognized seven heroic acts
by appropriating \$10,000 for the ed-
ucation of those responsible. An ad-
ditional \$10,000 was applied for the
liquidation of indebtedness and to
other worthy purposes for heroes.

The young woman who lost her
life was Karin S. Lundberg, 19 years
old, of 12 Chadwick avenue, Hart-
ford, Conn. She was drowned in the
Farmington River while attempting to
save Evelyn M. Anderson, July 5,
last. A silver medal was awarded to her father.

To the others who lost their lives
bronze medals were awarded in each
case. They were: Leo Daniel McGee,
thirty, 400 Cobb street, Johnsonburg,

Kabakoff Stops Hasben Rivers in Second Round Berger Only Piker Regular Not Ready for Drake Game Tomorrow

Once Good Fighter Displays Lack of Skill and Science Against Local Boxer.

Results of Bouts At South Broadway

Harry Kabakoff, St. Louis, vs. Ray Rivers of Los Angeles, eight rounds at 125 pounds. Kabakoff the winner by knockout in second round.

Sailor Jerabek, St. Louis, vs. Jack Marlow, Staunton, eight rounds at 125 pounds. Jerabek the winner when Referee Heinser stopped bout in second round to save Marlow from further punishment.

Jimmy Bock vs. Roy Klein-kemper, both of St. Louis, eight rounds at 115 pounds. Bock the winner on points.

Harry Kabakoff, the fighting lamb of the Ghetto, emulated a ferocious lion last night when he faced Ray Rivers, the veteran lightweight of Los Angeles, in the feature bout of the South Broadway Athletic Club. Kabakoff knocked out Rivers in the second round. Spectators packed the house.

Several things which do not usually occur when Kabakoff is in the ring came to pass. First of all, Kabakoff was cheered loudly and long when he climbed through the ropes. There was not a single boo. Then when the Ghetto Ghost was introduced he again drew a round of applause. That's something unheard of in the history of the S. B. A. C. fans.

And then came the bout. Kabakoff came out fighting and never during the duration of the contest did he "un-coin." Probably Kabby figured he had an easy mark in front of him and did not fear anything the coast veteran had to turn loose. If this was the case, Kabby certainly figured it perfectly.

But, despite all this, the contest did not pass without a usual after "well." There were hints of "like" that Rivers would quit and that the layers of odds were putting up 3 to 1 that Kabby would win by knockout. After the battle, however, none of these rumors could be verified.

Rivers' Legs Fall Him.

Walter Heinser, the referee, after the bout said that Rivers had made a wonderful effort to get up following the knockdown; that he held the count, but that his legs would not function. Rivers sat in his corner after he had been helped to his chair, saying: "I heard the count, but just could not get up."

That Kabby won was apparent from the start as was apparent in the eighth round when he landed a right without return. Rivers moved a great recovery—gave up everything the Ghetto Ghost had to offer, being entirely without defense. On the few occasions when he landed on Kabby, his punches were no power behind them. Twice in the round Kabakoff shook his opponent to his toes with right crosses.

Here's How the Finish Came.

When the second session opened, Kabby again rushed, and soon was in the ropes, pounding away with both fists. About the middle of the round Kabby shot over a left and followed with a heavy right that reached the jaw, and Rivers went down.

In trying to gain his feet, Rivers reached for the bottom rope, but missed it and turned over like a circus acrobat. Again Rivers tried to grab the rope, but failed, and was counted out.

In the semiwindup Sailor Jerabek turned a successful comeback against Jack Marlow of Staunton, who knew nothing whatever about the same except to punch round and round in the second round, when Heinser stepped the bout to save Marlow from unnecessary punishment. When the first round ended Marlow was down and Heinser had reached the count of eight when the bell rang.

With the start of the second, there was a lively exchange, and Marlow went down from a right for a count of nine. Just previously he had shot over to Jerry's "glass jaw," which had the sailor in a bad way. Marlow arose and was sent down immediately. He took a nine count, and when he got up was in no condition to continue, and Heinser stopped it. Jimmy Bock won from Roy Klein-kemper in the curtain raiser. Bock dropped his opponent for a nine count in the second, but failed to follow up his advantage. Klein-kemper proved a slution for punishment.

Carpentier and Dempsey to Sign

NEW YORK, Nov. 5.—Final details of the contract governing the proposed world's heavyweight boxing championship bout between Jack Dempsey and Georges Carpentier will be signed late today. Dempsey and his manager, Jack Kearns, were expected to arrive from Canada during the day.

Carpentier and his manager, Francois Desamps, plan to sail for France tomorrow.

To Report Game by Wireless.

MINNEAPOLIS, Nov. 5.—Reports of the Minnesota-Wisconsin football game at Northrop Field tomorrow will be flashed throughout the Northwest by scores of private and public wireless stations from the press box by students of the University of Minnesota Engineering College. The engineers have arranged to use wireless in the grandstand and will report the game play by play.

Washington, However, Fears Outcome of Battle With Bulldogs, Who Have Second Best Line in Valley and a Light, but Smart Backfield Quartet.

The Drake University eleven is at present holding the undignified record of no victories, two defeats and one tie in the Missouri Valley Conference football race; but this does not mean that the squad of Iowa that meets Washington University tomorrow does not command a lot of respect. As a matter of fact, the Bulldogs are held in as high esteem by the Pikeaway directorate as Ames was held last week.

In the first place Drake has a strong team. Missouri U. was able to gain only 10 to 7 victory, while Kansas could nose out only 7 to 3 verdict. When the Tigers and Jay-hawks were able to cross the line only one time in a game, that indicated the defensive strength of the opposition. Drake owns the heaviest line in the valley, with the exception of Kansas, and has a set of light but agile backs, who form a splendid secondary defense against pass play.

Secondly, the Iowans have the traditional nemesis of the local collegians. Year in and year out, Washington has met Banks men on odds-on favorites, but the times when the Pikers have been returned victors have been few.

Drake will employ the double-quarterback style of play which it used with only varying success last season. In this play two backs crouch behind the snapper-back and the effect is bewildering to the opposition. Of course, there are counter possibilities to the play. The Bulldogs also use, according to accounts of the Missouri and Grinnell games, a delayed pass formation which has worked handsomely.

Star Halfback Is Hurt.

Shawver, the fast halfback, will not be ready for tomorrow's game, according to advices from Des Moines. The blond athlete was the hardest man for the Pikers to stop last year and certainly he was missed by his eleven. Nigemeyer has taken up the quarterback duties since Brindley was declared ineligible. Hard working at halfback in his place.

The local eleven went through an intensive scrimmage yesterday afternoon and evening. They stepped right into the mix upon leaving the dressing room and were not awarded a lay-off until the stars came out.

LOOKING THEM OVER WITH OLD MAN DOPE

About the Football Public.

FOOTBALL crowds in this vicinity are poorly cared for, at best. In addition to the failure of local schools to number their players, thus far, the announcing system is far below sea level. The spectators sit in a state of mystified stupefaction, unless they are extremely well posted on the make-up of the eleven and on the fine points of the game as well.

Scoreboards are not only possible, but practical, and are maintained in other localities. The points scored and by whom is the least information that game promoters should supply the public, but not even this is provided. Even the 10-yard line are not always indicated by numbers, for the convenience of the onlookers.

With the advent of voice-multiplying machines, there is no reason why the spectators could not be kept accurately posted by vocal announcements, on all important happenings during contests.

The spectators could thus be familiarized with the amount and means for the purpose of making the important plays, substitutions, injuries, distances on long runs, etc. The voice-multiplying devices would enable even casual supporters of football to follow each contest intelligently.

Again Behind the Times.

NEITHER the Pikers of Washington University nor the Billikens of St. Louis University are wearing numbers, this year, for the benefit of the spectators, notwithstanding prejudice against this form of identification has long since passed on and the rule makers have recommended the adoption of numerals for players.

In the interest of the spectators, as well as the reading public, which is entitled to absolute accuracy, universities should not fail to employ numeral jerseys. It is as much an injustice to the spectators as it would be if theater patrons were asked to view a show with the names of the cast omitted.

Individuals in football plays are difficult of identification even with the aid of a member of the team in the press box. Many a time substitutes appointed by visiting teams for the purpose of identifying players have been unable to make good when the light happened to be poor.

Washington and St. Louis ought not to be above doing what Harvard and Yale institutions have done to approve, in the interest of those who pay.

Kid Dusty and Kid Bell, a pair of middleweights, will meet in the feature bout of the Lafayette A. C. negro boxing show tonight. Battling Johnny and Knockout Miller go on in the semi-main event. Kid Bell and Young Thompson in the curtain raiser. A battle royal will open the show.

Keogan's Machine Shows Power in Final Preparation for St. Louis U. Eleven.

VALPARAISO, Ind., Nov. 5.—Coach Keogan concluded a week of hard preparation for the St. Louis U. invasion by putting his squad through a two-hour signal drill yesterday afternoon. A twenty-minute scrimmage session proved the strength of the heavy line and Cearing, Moore and "Heavy" Harris had no difficulty in tearing off long gains through the scrubs' line.

Cearing showed up particularly well, his broken field running on two occasions totaling 70 yards. Eckland continued his sensational scoring by putting his squad through a two-hour signal drill yesterday afternoon. A twenty-minute scrimmage session proved the strength of the heavy line and Cearing, Moore and "Heavy" Harris had no difficulty in tearing off long gains through the scrubs' line.

How Teams Will Line Up

Washington, Position, Drake.
Keogan's Machine Shows Power in Final Preparation for St. Louis U. Eleven.

With Eckland and Goheen on the wings, Scanlon, the heavy quarter, will lead the scrubs. Eckland and Goheen, the heavy quarter, will lead the scrubs. Eckland and Goheen, the heavy quarter, will lead the scrubs.

Alumni are pouring in, today being Founders' day, and with favorable weather the contest will be the best attended of the 1920 season. The probable Valpo lineup will be: Eckland and Goheen, ends; Sawyer and Conley, tackles; Omer and Kriesler, guards; Kingstrom, center; Scanlon, quarter; H. Harris and Moore, halfbacks; Cearing or Gilbert, fullback.

MAN O' WAR'S OWNER IS OFFERED \$100,000 TO RACE CHAMPION ABROAD

PHILADELPHIA, Nov. 5.—Man O'War, mighty world's champion racehorse, may face the barrier at English race courses if money and the pleadings of many English sportsmen can induce his owner, Samuel D. Riddle, of this city, to take the favorite to the track. Before and since the match race in which Man O'War conquered Sir Barton, many offers have been made to get the champion of champions abroad.

Prominent sportsmen from abroad have urged Riddle to send Man O'War to England to meet the English champion, Comrade, but all these offers have been rejected.

31 LOCAL QUINTETS ENTER MIDDLE WEST

Thirty-one local bowling teams yesterday filed their entry for the Middle West Bowling tournament, which is scheduled to start on the Washington alleys, Nov. 19. Of the entrants, 15 were from the Missouri Pacific League and 16 from the Macabees. The other five were the United Backers Supply team.

ARMY TO NUMBER MEN IN CONTEST WITH NAVY

NEW YORK, Nov. 5.—The Army football players will wear distinguishing numbers in their annual game with the Navy in this city, Nov. 27. This announcement was made to the Associated Press by Maj. Phillips Hayes, executive of athletics at the United States Military Academy at West Point.

Britton to Box Lux.

KANSAS CITY, Mo., Nov. 5.—Jack Britton, holder of the welter weight title, will meet Morris Lux of Kansas City in a 10-round bout here Thursday, Nov. 18. The match was closed in the semi-main event by the Central A. C. Little Club. The weight will be 145 pounds at 3 o'clock on the day of the bout.

THE PASSING OF THE DAY

Who holds the just share of games. He did win enough to cop the flag.

If Jimmy Burke's successor should succeed. His efforts must be favored by success.

A fact that's very palpable, indeed. Herewith submitted as our second guess.

Eight managers are in the pennant run. But only one of them can turn the trick.

So a successful manager is one. Who though he loses manages to stick.

It's not the manager who makes the team. It's hitting that old apple on the head.

Regardless of the ball the pitcher throws.

The grandstand managers in herds will hurry to the aid of Phil and Bob.

A number have been paying Jimmy Cox. Who shortly will be looking for a job.

Of friends the Goose Hill hero had a host. Who'll view his passing with a tear.

Although a pennant team he didn't boast. He surely was a first division guy.

TOO TRUE.

Jimmy Burke was among those caught in the late lamented landslide. It's tough sledding on Goose Hill.

JAZZ RHYMES.

THOUGH jazz effects my mind disturb. There's one I love to hear: The coal that rattles on the curb Makes music to my ear.

—Washington Star.

No matter where I chance to sup. There's one refrain I love to hear: The lumps of sugar in my cup Make sweetest music to my ear.

—Jemkax.

With three men on and two men out. And three runs in the rear, That old, resounding home-run clout Makes music to my ear.

EVIDENTLY.

Judging by the success of Senator Harding's front porch campaign, the stoop is mightier than the stump.

JOHN LAYTON RUNS 100 IN "POOL" EXHIBITION

Johnny Layton, an entrant in the world's best-cushion championship tournament, turned in a run of 100 in his pocket-billiard exhibition at the Grand yesterday. In this game he defeated Grossman, 125 to 14, going out in three innings. He also defeated Albrecht, 125 to 47, in eight innings, with a high run of 60.

Today Layton will oppose M. Billiter and Gus Mueller, while tomorrow afternoon he will play for the convalescent soldiers at the reconstruction hospital. Layton departs for Chicago tomorrow night.

Choice of Browns For New Manager

St. Louis, However, Concedes Detroit First Call on Former Sox Leader.

The "next manager of the Browns" was the subject of conjecture here, yesterday, among baseball fans, following the announcement of the release of Jimmy Burke.

The names of Lee Fohl, Browns scout; Rowland, former White Sox leader; Spencer Abbott of Tulsa, a Western League product, and Fred Mitchell, last year with the Cubs, were mentioned.

Acting President of the Browns Bob Quinn declined to shed any further light on the subject than to say the 1921 leader would not be named until after the minor league meeting at Kansas City, Nov. 9, but it can be stated positively that Fred Mitchell will not be acceptable to the club. Spencer Abbott is not familiar with the American League or major league conditions and may also be eliminated.

Rowland Is Wanted.

The Post-Dispatch is able to state authoritatively that the St. Louis club would like to have Clarence Rowland, who won a pennant for the White Sox, but will not go after him.

Frank Navin, the Detroit owner, has made it perfectly clear that the Browns' bids will not run counter to his own managerial plans. Rowland, it was stated in Detroit papers, was the Tiger owner's first choice for successor to the departed Jennings.

Lee Fohl, a leader thoroughly posted in American League affairs, is therefore strongly in the running, and may get the position as was published several months ago. Fohl is a capable man, although replaced by Speaker when the Cleveland team's progress failed to satisfy its owners.

Burke's future has not been settled yet, but with four or five positions open in the major leagues it is reasonable to assume that the good-natured but aggressive leader will land with some good team. Burke's most probable berth, in case Detroit lets St. Louis have Rowland, is at Detroit, where he won a home as coach under Hugh Jennings.

FRANKLIN TAKES LEAD IN "POOL" TOURNAMENT

CHICAGO, Nov. 5.—Walter Franklin, the youthful Kansas City star, yesterday went into the lead in the national pocket billiard tournament here by defeating Charles Seaback of Torrington, Conn., 125 to 48 in 25 innings.

Franklin has won eight games and lost one. He outplayed his rival throughout the contest, his best work being a run of 34 balls in one inning. This was the last appearance of Seaback in the tournament.

B. F. Rhinehart of Akron, O., playing 24 innings, defeated James Maturo of Denver, Colo., 125 to 100. Arthur Woods of Minneapolis defeated W. D. Rickets of Flint, Mich., last night, 125 to 101, in 36 innings. Woods' high run was 17; Rickets', 19.

TRAPSHOOTERS ELECT SHANER PRESIDENT

NEW YORK, Nov. 5.—Elmer E. Shaner of Pittsburgh, who for more than a quarter of a century was identified with the management of all the big trapshooting contests held in this country and Canada, yesterday was elected president of the American Trapshooting Association.

At the annual meeting of the organization Thomas A. Marshall of Chicago was elected vice president; Thomas Davis, New York, treasurer, and Stoney McLean, New York, secretary and manager. The new Executive Committee comprised: F. G. Drew, New Haven, chairman; G. Galvin and C. W. Hymer, both of Wilmington, Del.; J. Leonard Clark, New York, and T. H. Keller, New York.

MUNICIPAL OFFICIALS SUSPEND FIVE PLAYERS

Five Municipal League soccer players were suspended at a meeting of the officials held yesterday. F. Clark of the Trumbulls was set down indefinitely for fighting, while the other four escaped with a one-week sentence. They were A. Mier, South-side; E. Kohlman, Kohlman's; V. Cropper, Shumacher, for fighting, and M. Walsh, Southern, for disputing the referee's decision.

Harvard, 2 to 1 Favorite, Worries Over Tigers' "Flying End" Attack

Cambridge Optimists, However, Point Out That Crimson Machine Stopped Centre and Can Rely on Its Sound, Stable Defense for All Sorts of Formations and Plays.

BOSTON, Nov. 5.—Harvard is a 2 to 1 favorite to beat Princeton in the stadium tomorrow, but the odds are not warranted. Despite the Centre game, the crimson has not been up against the same toughening early season schedule which the Tigers have faced. Both teams are undefeated, but the so-called "Colgate" offense, which raises the ducks and ends and tackles, has been polished up and perfected by the Tigers to such an extent that all Harvard is worried lest the Bengal run wild and give old Puritan John Joseph Harvard a ragged afternoon while the 44,000 football enthusiasts look on.

Harvard stopped the Centre attack and that was something in favor of the Crimson defensive tactics and theories. Harvard prides itself more on the perfection of a sound, stable defense for all sorts of formations and plays, more than it puts its faith in the back for producing big scoring teams of the sort which Wendell, Brickley and Mahan captained.

The particular genius of the Tiger attack is a flying end, who comes in pell-mell to the line of scrimmage, either throwing himself at the opposing tackle and knocking him in, or cutting over the line of scrimmage to land a defensive halfback or to receive a short forward pass.

Many Combinations Possible. This flying end, alone, does not mean much. But Princeton shifts three backs out beyond the tackle line, and at least a yard behind the line of scrimmage. And this trio can do any of many things. They can spread and get into advantageous positions for forwards or they can close in and interfere most tellingly on a slash off tackle or an end run.

Centre tried an all-the-way-across-the-field offense and was nonplussed when Harvard's defense opened right up to meet that formation with but four men on the line of scrimmage. Centre stalled and had all sorts of back field conferences. Harvard stopped the Centre plays from that spread formation. Harvard men think they can stop Roper's adaptations of the "Colgate" offense. Anyhow, head coach Bob Fisher of Harvard has been giving his tactics and ends plenty of bruising, hard work. He has Kane at end this year and last year that same Kane was a very efficient tackle against Princeton, Yale and Oregon. So there is nothing frail or puny about Harvard's wing defense.

Tigers Strong at Aerial Game.

In Louie and Murray Princeton has as good a forward passing pair as were Strating and Trimble last year for the Tigers, or Fulton and Casey for Harvard, or Anderson and Watkins for Colgate. But Harvard got some very good forward pass defense experience against Centre, and that the Crimson was playing football immeasurably better than the article its crimples put up against Georgia Tech the following week-end.

Not since 1896 has Princeton defeated Harvard at Harvard, and in all these years Princeton has had a good punter. It usually plays a punting offense, relying on a good punter, alert ends and smart down-the-field work to uncover a break. This year Joe Schuchman, alleged best punter in the East, is Princeton's boot ace, and he is good, averaging 51 yards under pressure so far this season.

But Harvard's backfield men, Quarterback Fitzgerald and Halfback Wittich are superb punters. And Harvard has an all-kicking backfield, with Horween, Churchill and Owen all good punters. In Roscoe Pitts, who has been at the helm of Princeton's backfield, but who has been suspended for a week, because of his actions last Sunday, Marre was chased by McSweeney, but delayed his departure and held up the contest. For this reason he was set down. Rooney probably will take his place.

Midline Best in Decade.

Harvard's average weight is 183. Its midline is the best in a decade of Harvard football, where instruction is detailed and cumulative, intensive.

When the champion Ben Miller opposed the Innisfalls next Sunday, they will be without the services of "Flap" Marre, star inside left forward, who has been suspended for a week, because of his actions last Sunday. Marre was chased by McSweeney, but delayed his departure and held up the contest. For this reason he was set down. Rooney probably will take his place.

In the Other Clash Sunday, the Leading Scullin tackle the Screw Co. eleven.

With the cup title in view, the managers at a meeting decided to lengthen the halves of the contest at Cardinal Field, starting next Sunday, to 35 minutes, instead of the usual 30. It was announced that the first game would start promptly at 2:15 o'clock and President Barker will issue instructions to the referee to blow his whistle at that time, and if all the players are not on the field, the clash will be inaugurated without the absence. In the cup battles 45-minute halves are played.

PRICE MOVEMENT BACULY COULDED IN STOCK MARKET

Industrials Mostly Weak While Railroad Shares Show Slight Advance.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Nov. 5.—The Evening Post in its copyrighted financial review today says:

"Movement of prices on today's stock market was irregular and confused in the extreme. To make the uncertainty more emphatic, periods of activity alternated with dullness. It has become rather trite to say that the stock market is under the influence of unsettled commodity markets; usually the Stock Exchange is accurate in its forecast of a change in industrial conditions, but it is rather difficult to tell what is now being 'discounted' by the movement of stocks. For one thing, prices are influenced by the practical and immediate contemplation of high money rates. A more illuminating test would be afforded if the money market were able to supply a comfortable surplus of funds for Wall Street. There were today no signs that such a surplus exists. Call loan rates, after standing at 9 per cent last hour, went to 10 in the last hour.

"Difficult to Detect Trend.

"In the midst of the great irregularity which prevailed on the exchange, it was often difficult to detect a definite trend in prices. In the main, industrials continued weak while railroad shares again showed an inclination to advance. Substantial movements in these directions took place during the day, while toward the closing there were some slight recoveries in the industrials and corresponding downward reactions in railroad shares. In individual cases, the advances and declines were considerable, steel, oil and motor stocks losing rather heavily and railroads like Chesapeake & Ohio, Great Northern and Pacific making gains of 1, 2 or 3 points. A fresh decline of 14 or 15 a bale in the price of cotton took place in the afternoon, on reports of curtailment of operations by Southern spinners.

"Spanish Exchange Rate Drops.

"Weakness in foreign exchange, which has been affecting European markets in rotation, today found its chief in the Spanish rate, which touched a new level of depreciation, sinking to the Dutch, Swiss, Italian and Austrian exchanges. Sterling and French francs were also extremely weak, sterling touching the lowest level since last March. Dealers reported that these declines were taking place on a relatively small volume of selling. It would not be unnatural if at present quotations holders of bills should keep from the market for more favorable conditions. Rates on Canada, however, held firm in today's market. Canadian farmers have sent large amounts of wheat across the border and to Europe, while our own wheat growers have been disposed to hold for higher prices.

"The announcement today that an additional \$100,000,000 of Transvaal gold had been brought in by American bankers brought the total of such purchases since the first of the year up to more than \$150,000,000, which has been a useful addition to our banking reserves or has helped meet the demand for export of the metal. From the first of the year up to Oct. 20 the Federal Reserve Board placed on its total gold imports at \$270,000,000, compared with exports of \$270,000,000. At the present rate, therefore, we shall have a favorable balance in gold transactions with the rest of the world this year, whereas last year the excess of exports was more than \$100,000,000. This represents, in a very striking way, the swing of the financial pendulum in the direction of the United States as our strong commercial position asserted itself. Practically the gold imports will not have as much effect on the bank position as might be imagined, since a large part of the receipts will come from the \$100,000,000 of year-marked gold held for account of the Federal Reserve by the Bank of England, and already included in our banking funds."

NEW YORK, Nov. 5.—The markets for foreign exchange, for which cotton and for many of the industrial stocks continued their downward movement simultaneously today. Sterling got well down in the foreign exchange market. The break in cotton options was violent, and indicated that severe as yet the downward movement of the market has not yet fully measured the combination of a large harvest yield, with greatly reduced consumption at home and abroad. On the Stock Exchange the proceedings were a repetition of yesterday. Numerous weak spots were uncovered throughout the industrial list, while in direct opposition to these declines there was a demand which at times became really eager for railway shares. The high dividend-paying rails, particularly the stocks of companies which have possibilities of further expansion, such as Chesapeake and Ohio, and Burlington, and the distribution of treasury assets, were favored in the buying. Northern Pacific and Great Northern preferred both opened up sharply on the publication of the tentative plan for making the surplus in the Burlington treasury available for the holders of these stocks. Atchafalaya responded readily to the reminder that it has oil properties which might be segregated. Union Pacific, Canadian Pacific and Reading all of which have been mentioned as valuable interests outside of their road and equipment, were actively bought at rising prices. The St. Paul moved forward briskly on the renewal of the discussion which was popular in the early part of the year regarding the oil possibilities in the St. Paul territory. Chesapeake and Ohio, and Kansas City Southern and Rock Island also showed some special strength.

As was the case yesterday, the principal weakness in the industrial principal

MORE TRUTH THAN POETRY

By James J. Montague.

HOW DID HE DO IT?

We look at the pictures of playwrights
In the act of devising great scenes;
Their stories we read of the way they succeed
In all of the late magazines.
Their press agents tell us their habits,
And dwell on their cute little ways,
Till we avidly dash with a handful of cash
To buy a front seat at their plays.

We know that it isn't the author
Who ever puts over a show,
It's the press agent's pep that gives it its rep
And makes it a whale of a go.
It's the sharp little close-ups he gives us
Of the dramatist's intimate life,
Of the way that he writes in the cellar of nights
Away from his kids and his wife.

The author we see playing tennis
(In the magazine's pages, of course);
The author they snap as he murmurs, "Giddyap!"
To his beautiful thoroughbred horse,
Is the author whose plays are a knockout;
No playwright could ever win fame
Or make his trade pay, in this curious day,
Without the publicity game.

When Shakespeare indited a drama,
They just put it on—that is all,
And night after night they would pack 'em so tight
That they sprung out the sides of the hall.
No magazines printed his pictures
To gladden the popular eye,
No press agent's praise made a name of his plays—
Yet somehow the fellow got by!

EASY GOING.

While the authorities are wonder-
ing whether to prosecute for smug-
gling or violating the booze law the
boys keep sliding the stuff over the
Canadian line.

EPIDEMIC.

Baseball hasn't a monopoly of
graft. A New York labor leader has
just been caught accepting \$25,000
for throwing a strike.

A Great Difference.

A noted physician, particularly ex-
pedient in examining and prescrib-
ing for his patients, was sought out
by an army man whom he "polished
off" in almost less than no time. As
the patient was leaving, he shook
hands heartily with the doctor and
said:
"I am especially glad to have met
you, as I have often heard my fa-
ther, Col. Blank, speak of you."
"What!" exclaimed the physician.
"Are you old Tom's son?"
"Certainly."
"My dear fellow," cried the doc-
tor, "filing that infernal prescription
is the fire and sit down and tell me
what is the matter with you."—Har-
per's Magazine.

Help the Blind.

A small storekeeper put up in his
window not long ago an elaborat-
ely blind. Quoth his neighbor,
"Nice blind of yours, Isaac." "Yes,"
said the reply. "Who paid for it,
sac?" "The customers paid." "What?
You say the customers
aid for it, Isaac?" "Yes. I put a
red box on my counter and la-
bied, 'For the Blind,' and they
aid for it."—Stars and Stripes.

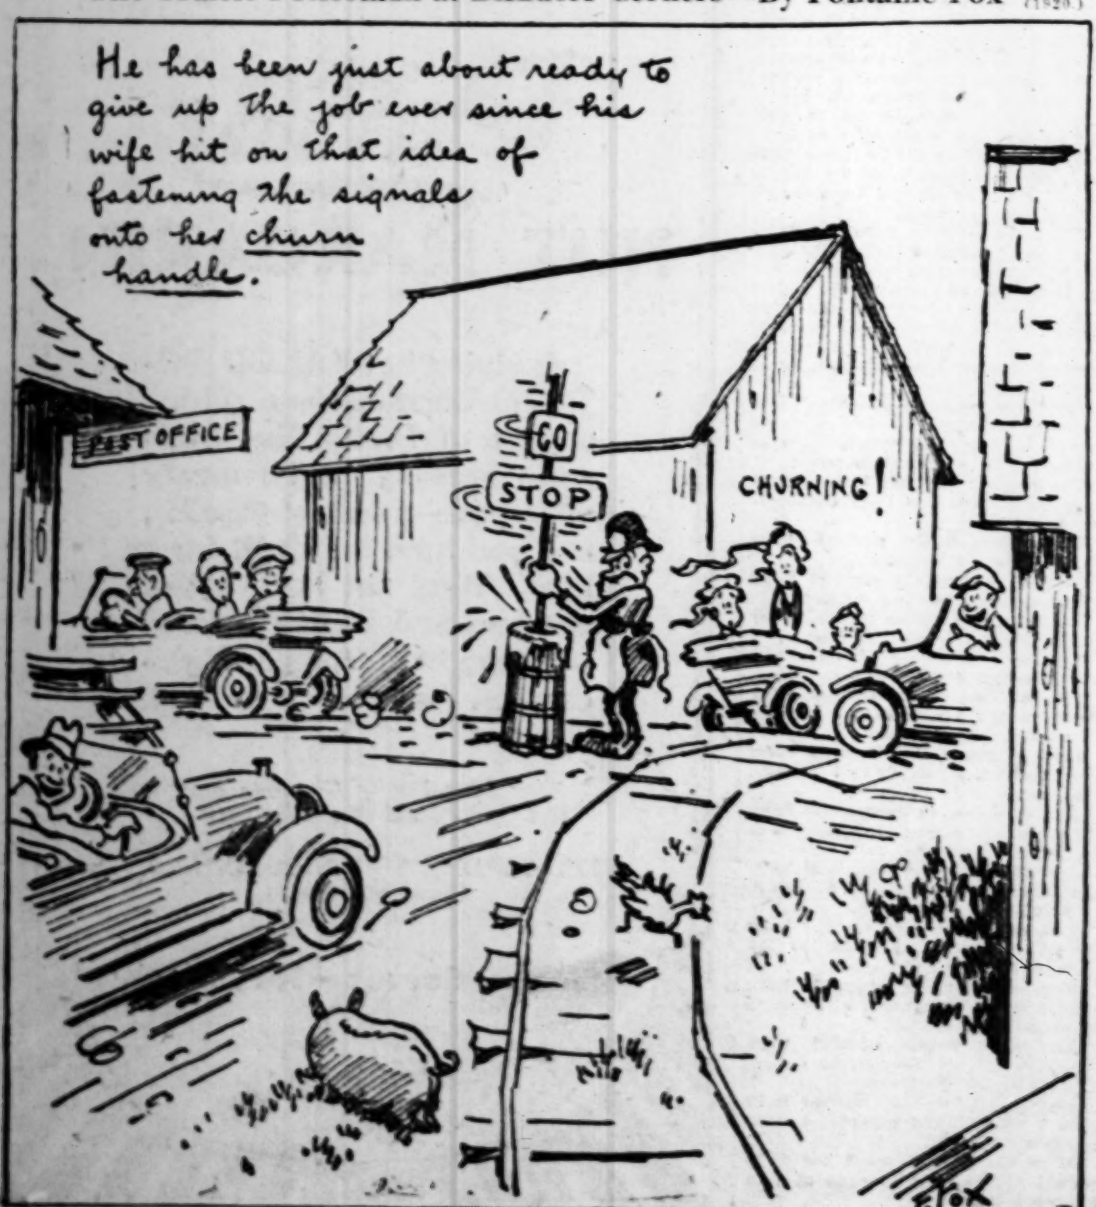

Back Talk.

Lotion Horton, the milk king, was
talking at a New York dinner about
the modern woman's "ultra" gown.
"A proffiter," he said, "was dress-
ing the other evening for the opera,
when his wife stalked into his dress-
ing room.
"Here you are," she hissed, "a
war proffiter getting 300 per cent
dividends, and I've got only one de-
cent dress."
"He turned and looked her up and
down, then he said:
"Well, I wish to goodness you'd
wear it!"—Pittsburg Chronicle-
Telegram.

Lady Wanted.

The other day, when the beach
was crowded, a small boy, looking
rather bewildered, approached a po-
lice officer and said, "Please, sir,
have you seen anything of a lady
around here?"
"Why, yes," answered the officer.
"I've seen several."
"Well, have you seen any without
a little boy?"
"Well," said the little chap as a
relieved look crossed his face, "I'm
the little boy. Where's the lady?"—

Canine Tribute.

A Boston man who motored
through Kentucky last summer put
up one night at a country hotel in
that State, and going out on the
plaza after supper he heard a
group of natives discussing the char-
acter of a citizen who had just been
buried. The Boston man became
interested and asked, "Was he pop-
ular?"
"Was he?" echoed the chief
speaker. "Stranger, every dog's tail
in town stopped waggin' for five
minutes while the funeral passed."
